

## VAMPIRES SEEN IN DAYLIGHT! Red Cross Implicated

### Atlantis found in the Pacific!

### Did ancient Polynesian warriors once visit the shores of Los Angeles? \*

#### 👑 Con Suite

The Con Suite is on the third floor, rooms 3107-3109. You can take the shortcut across the deck; when you come out of the elevators, head toward the pool but turn left instead of right.

#### 📺 Attention All Animé Fans

The Animé Expo (Japanimation) convention is going on in Anaheim right now, at the Anaheim Marriott. (This is one of the reasons that we're not doing a lot of Japanimation here and we don't have an Animé room.)

The two conventions are offering reciprocal \$5 discounts off of 1-day and full memberships. In order to get your discount, show your Westercon badge at the Animé registration desk.

Noel Wolfman

#### ☺🩹 Red Cross Blood Drive

The Red Cross will be accepting donations here, all afternoon, today, from 12:00 Noon to 6:15 pm. Look for the friendly vampires downstairs in the Plaza room. (Take the lobby escalators or take the Parking Elevators to "LL.") Earn a chance to win nifty prizes!

#### 🖋 Autographs

Autograph Sessions start on Saturday. Lists will be published here beforehand.

#### 📄 Off the Walls

The Hotel has asked that no notices be taped or otherwise affixed to the walls, doors, mirrors, and other vertical surfaces. Look for the twelve (12) **blue boards** positioned throughout the convention, where you may post your timebound announcements.

#### 👥 Attention Party Planners

The hotel catering staff has a special Catering Menu available for convention parties. Drop by the Con Suite for a price list.

#### 📋 Registration Report

There are 798 pre-registered memberships; 713 paid memberships (including dealers) and 85 guests/comps.

#### 📋 Party Listings 🍷

Party lists will be in this corner of our evening editions. Be sure to **post** your party on the **Party Board** at Information, and drop a note in the news envelope at any newszine board. Deadline for party listings in evening issues is 2:00 pm.

"Your weapons are no match for ours!  
People of Mars, surrender!"

"Um, this isn't Mars. This is Earth."

"Earth? Earth-with-nuclear-weapons Earth?"

"Yes."

[long pause] "Friend!"

**Musgrave's Futhorc Runes**

For those of you who may not be familiar with our Guest of Honor's work, he often includes secret messages in his art, spelled out using a very powerful Germanic futhorc (rune alphabet). We have obtained a transliteration key for you to use in interpreting his writing, and the remarks of the occasional pocket dragon. (To practice, work out how to say "In Draco Veritas.")

The runic purists out there will notice that the Musgrave Runes don't make use of the Þ or Ɔ runes. For that matter, there are no symbols F F J E Ɔ and N isn't what you're used to... Deal with it.

**Digbyisms**

"Medusa? Third house on the left, the one with all the statues of burglars in the yard."

"Tomorrow *the flea people* are coming..." Makes me think of low-budget horror-movie plots.

**Thursday Night Party Reviews**

The Con Suite/Early Birds Potluck Party last night was a success according to everyone we talked to. Cristian McGuire ran the affair, where a large number of fans made short work of a variety of snacks and some "real food." The atmosphere was nice; everyone seemed to be talking and having a good time.

We'd also like to thank the team of five or six fans, led by postmaster Sandy Cohen, that put together the goodie bags, with the Program Book and Program Portfolio (Pocket Program).

The best Texas Party was the El Paso in '96 Westercon Bid affair. Although limited to one room, it seemed like a *big* room. They flew Texas flags, served peanuts and other munchies, and sold supporting memberships. Pre-support El Paso, and get a spiffy pin! And they had people: it looked like all the people from the Con Suite came through the party at one time or another.

"Take a well-known expression in a foreign language, change a single letter, and provide a definition for the new expression."

*Harlez-Vous Francais?* Can you drive a French motorcycle?

*Cogito Eggo Sum:* I think; therefore, I am a waffle.

*Rigor Morris:* The cat is dead.

*Felix Navidad:* Our cat has a boat.

*Aloha Oy:* Love; greetings; farewell; from such a pain you should never know.

**Lost? Child**

What did you say, son?  
Why did I cut what? Those flowers?  
Because they were there.  
We do need to clear this field before fire season.

But you say they weren't a fire hazard like the dry grass  
So we didn't really have to cut them?  
Maybe not, but it was easier to go cutting straight through than to stop and think about it.  
If you really want flowers, you can buy flowers somewhere later.  
Quit worrying about that kind of stuff.  
Just forget all about it.

Gateways for the Little People?  
You say if you relax in a field of wildflowers  
And let your eyes unfocus and your mind go blank  
You may suddenly hear music and song and laughter,  
And if you follow your ears and your heart  
They'll lead you through the flowery gate  
Into the land of the Little People,  
Whose cares are different and perhaps more to your taste  
Than the cares of this world?  
I'd better not catch you telling that to the neighbors.  
They'll think there's something strange about you.  
Quit worrying about that kind of stuff.  
Just forget all about it.

We're almost half done. Let's take a break.  
Here's a tree we can sit under.

Son, do you hear somebody singing off behind me somewhere?  
Are you going to meet them?  
What are you laughing about?  
Where did you disappear to?  
Son?  
Son?  
Answer me!  
Wherever you are, come back here!  
I am your father!

Please come back and tell me  
If I really did just hear a faint voice  
Telling me  
"Quit worrying about that kind of stuff.  
Just forget all about it."

## Dino-Night

Or, another excuse to eat ice cream while abusing extinct species!

Friday night, starving fen descended on the International Ballroom for the traditional Ice Cream Social and Paper Airplane Crash. Chocolate, Vanilla, Cookies 'n Cream and Strawberry were the featured flavours, but in keeping with the high standards set by the Costumers' Guild, naked ice cream was not allowed, and the heaping dishfuls were decorated with choconits, red-hots and peon butterines.

Discontent with tradition, enterprising groups set up booths to lure the gobbling public. Winners of the Los Angeles Science Fantasy Society bean-the-LASFs-member haggis toss were awarded a shiny new dino sticker. Conozoic's ring toss got you a dollar off a T-shirt, while successful pog players

got a free book from A&M Book-sellers. The Jedi Knights fought galactic hunger with a feed-Barney-to-Jabba toss. Time Meddlers helped spread saurians via Tardis, and the lucky time travellers won a raffle ticket. (That's right... they won a *chance* to win something else.) People holding wet sponges to their foreheads were suffering not from migraines brought on by overeating, but from Wester-Con's Instant Tattooino Parlour and the artistic talents of Carol Ann Cranston. SWOC (to the acronym-challenged, that's the Seattle in '97 WesterCon Organizing Committee) paved the way to the Pacific Northwest with Yakima apples and gold yellow bricks.

Now, aren't you glad you're not allergic to milk?

Michael Victorsaurus Kyle

The Orange County group had a fishing booth. The Seattle booth was also representing NWSFS and all other conceivable northwest conventions, such as Norwescon, Radcon, and Dreamcon. The line for the Time Meddlers, where fans threw dinosaurs into Tardises, was one of the longest, according to meddler Shaun Lyon.

Chaz Hiccupotamus Baden

The LASFS "Haggis Toss" booth, where LASFSians Galen Tripp, Beth O'Brien, Matthew B. Tepper, Sandy Cohen, Mike Glycer, Ed Green, Mike Stern, Leigh Strother-Vien and Charles Lee Jackson II were pelted with a mock haggis thrown by the fans, was based on a stupid incautious remark by Mike Glycer at a board meeting.

### El Paso Wins 1996 Westercon!

In voting which concluded Saturday night, El Paso received 132 votes, with 6 going to No Preference and 3 going to None of the Above.

Write-in votes were also received for:

- 2 Chico/Cheeko
- 1 Cabo San Lucas
- 1 Gnome of the Above
- 1 Mars.

146 Total. More information will be announced at the business meeting being held at noon Sunday in the Forum Room, including Guests of Honor, etc.

### Masquerade Winners

At approximately 4:00 a.m. Sunday morning, the masquerade winners and entry info that I had carefully typed in managed to vanish without a trace. (As I write this, I am very tired and am starting to make mistakes.) I will retype it in today and print it in the evening edition. My apologies...

### Mant - A restored rarity

Saturday afternoon at 4 p.m. in the Theatre, director Joe Dante presented Westercon with a real rarity, the restored version of the 1962 Woolsey International film *Mant!* Although the full-length version has long since been lost, Dante's compilation of scenes from the feature film, plus the original trailer, has plenty to interest the genre fan. Displaying the cream of 1960s special effects, *Mant* shows off the "atomic terrors" of that era's horror films to remarkable effect.

Dante followed *Mant* with his own film, *Matinee*, a teenage comedy set in Florida in 1962, the year of *Mant's* release. However, since *Matinee* was not a genre film, few people stayed to watch.

### Westercon Vice Chair Trapped in Bathroom

Yes, the rumors are true. Vice-chairman Danise Deckert was indeed locked in a hotel bathroom in her hotel suite for over 90 minutes. When asked about this, Danise casually replied "It's no big deal." Nevertheless, the daring adventuress avoided destroying hotel property for the good of the Con, even though the door probably deserved it.

### Tip Your Maid

Tipping your neglected chambermaid does a lot to change her mood towards you. She is the hotel attendant who does the most for a guest, yet is the one most likely overlooked.

Maids do work weekends, so if you leave a large sum at the end of your stay, you may be giving it to a relief maid. Instead, it's fairer to tip a little amount every day.

The best spot to put your tip is under the pillow of your unmade bed, the way the Asians traditionally do.

We know it shouldn't make a difference in your service, but maids are human. When you're thoughtful of them, they'll be much more conscientious when you ask for extra towels or bubble bath.

Adrienne Foster

Don't know how much to leave? A dollar per day per person. (At the very least, a dollar per day per bed.) This goes for crash space cadets too. Believe me, the maid won't complain about the implications of a \$6 tip each morning.

### Con Suite Review

My admiration and thanks to those persons running the Con-Suite.

Today I have seen fans gripe about the lack of their preferred food, sprinkle crunchie bits upon this floor to be ground into carpet by uncaring feet, wallow through offered food like a berserker movie, and generally behave with a lack of thought or civility.

Through it all, the Con-Suite personnel have kept their sense of humor, done their job, and not killed anyone!

My thanks to you people. You be doing good!

Guy Taylor

I would like to personally apologize to Crickett Fox and those parties that were missing from the Party List in the previous issue. I did not make a noon pick-up run from the news envelope at the newsstand near Information, and as a result the Silicon Valley in 1997 Westercon Bid party and other parties were left out. And I was trying for 100% coverage this time... *Chaz Hiccupotamus Baden*

**Attention Collectors!**

Two collectors' items will be *auctioned* off as the last two offerings at the Art Auction. They are:

- a limited signed and numbered boxed edition of James Lee Burke's *Dixie City Jam*.
- a collectors' set of magic alpha cards

All money will go to RIF (Reading is Fundamental) and the Los Angeles Public library. Both offerings are currently on display at the Book Exhibit in the Pavilion.

The Art Auction will be on Monday, July 4th, at 11AM in the Pavilion.

**Books! Books! Books!**

The Book Exhibit has seen a steady stream of traffic. Perhaps that's because people see a chance to go home with a lot of *new books* and other good stuff.

The Book Exhibit Raffle, which will benefit RIF (Reading is Fundamental) and the Los Angeles Public Library, will be held on Monday, July 4th, at Noon (after the Art Auction) in the Pavilion.

Anyone can win - all you need to do is buy Raffle tickets. They are 50 cents each or 5 for \$2 and can be purchased at the Exhibit and Information.

The Book Exhibit's hours are 10AM-6PM on Sunday, and 10AM-11AM on Monday.

**Fen Trapped 'Tween Floors! Fire Dept. Stages Daring Rescue Effort!**

Dastardly thwarting their plans for the Masquerade, ten "lucky" fans were trapped in the Hilton Elevators on Saturday evening. Westercon Committee member Shaun Lyon, Time Meddlers David Keller, Deanna Bayless, Matt Mitchell, Arlene Satin & Jim Terry, Australia '99 member Eric Lindsay, USS Alliance Captain Jennifer Cole, Jon Stevens and Barry Bard were forced to brave sweltering temperatures (due to the fact that the hotel could not tell the "adventurers" how to open the emergency access) and their own bad puns.

The L.A. Fire Dept. was called out to rescue the ten-some. Meanwhile, they were able to partially open the inside door, discovering they were about five feet above the floor. Ventilation was properly achieved and the fire department was able to pull them out after about half an hour, with light conversation between the trapped occupants and con-chair Noel Wolfman in the elevator lobby.

All said, the major complaint by the ten (who later posed for pictures) was the awful Muzak. And so it goes...

## Babylon 5

A Westercon Presentation hosted by Lawrence DiTillio

This was a surprisingly laid-back and informative affair, lacking the adversarial ambiance I've seen in past presentations. The one time things got a little hairy was when I (and others) asked Larry why is it that all the women on *Babylon 5* are victims? Larry pointed out, and rightly so, that Ivanova, the First Officer and second in command, is a strong character. (Now if only she were allowed to command the station after Commander Sinclair leaves. That's right, he's leaving/history. However, Larry pointed out that such decisions are not up to him.)

Yes, for me, that was the big news of the day: Commander Sinclair (and the actor who plays him) is leaving the show. When Larry checked out our verbal reaction to this news, I was gratified to hear a mixed response. (And I thought I was the only one who liked this character...) But don't worry, folks, the plot hole about the "missing 24 hours" in Sinclair's mind, and why the Minbari surrendered, will be answered in the first episode of the second season. (And ghod only knows when we'll be seeing *those* new episodes; the original plan was to air them during the November Sweeps Weeks. But, like everything else in television, that is subject to change.)

(Incidentally, the *B5* episode airing this coming Wednesday should be a new one.)

For me, it was hard to decide what bowled me over - Larry telling us what triggered the Earth-Minbari war - or the casual way he told us. This was started by, as Larry put it, a "misunderstanding": Revered Minbari leader comes to Earth. Earth panics. Earth vaporizes Minbari leader. Minbari reacts ("You can't do that to us!") by starting the

war.

Other tidbits Larry fed us during this mostly Q&A presentation:

The lizard-looking aliens, the Narn, are actually marsupials. "Why else would you hear G'Kar going around saying 'Kiss my pouch?'"

The mysterious Kosh-in-a-box can't get through the doors. His costume was made a couple inches too wide, so every time the character is supposed to go through a door, they fake it.

Ivanova will get a promotion.

We'll be seeing more about the Centauri (the humanoid aliens whose hair looks like a broad wire paintbrush) and the Minbari (the bald-headed aliens who like to dress in Samurai jackets).

It was a very good presentation even though it lacked the usual trappings: actors, screen footage, etc. One of the things which made this fun was the fact that we were Q&Aing the story editor, DiTillio, instead of producer Strazcynski, which put a different slant on things.

Oh, if you want to contact *Babylon 5* and you're not on the nets, write in care of Warner Brothers.

### Party Reviews & Impressions

First day polite veneer worn off most party goers...

**El Paso:** Organized, calm, eye-of-hurricane ambiance. Sombreros, paper parrot cut-outs strangely bring to mind Citizen Kane. Wide open Texas space helped by mirrors.

**Baltimore:** Hurricane itself. Warm, sticky, close, close, close environment. Black leather chained ladies, large bed. Help!! Cake nearly gone.

**Philadelphia:** One of several "family" round the TV parties. Coffee emphasis. Nice chips and salsa. VCR removed as I entered; they must know me. Proper "Framers of the Constitution" ambience.

## The Lone Star of Fandom

The El Paso (Westercon in '96) Bid party is a happening place. Nightly, starting at 9:00 pm, in the spacious suite of 3013, is the fun party. Though the snacks and drinks are not quite impressive, the surroundings and the people are.

Thursday I got into a fascinating conversation with a fan (sorry, I tried later to track him down and get his name, to no avail). Our talk started with my admiring the Texas flag on the wall (actually, he said it's a bandana, the closest he could get to a flag) and ended with us discussing Mexican and American history.

Friday I ran into SF writer and *Star Trek* novelist, Daffyd ab Hugh, who had just come out with the high quality *Star Trek: Deep Space Nine* novel, *Fallen Heroes*. (How good is it? Well, it made me fall in love with Commander Sisko — and I am *not* a Sisko fan.) And his upcoming book is a *Star Trek: The Next Generation* novel about... Wesley Crusher! (I've seen what a good writer can do to make Wesley a living character, so don't laugh.) Though the official publication date of ab Hugh's Wesley novel is January '95, it will probably hit the stands as early as December.

I got involved in a second conversation, this one with writer William F. Wu. Bill regaled me with a tale of the pleasures and tribulations of working with a collaborator. To be precise, working with his collaborator was a pleasure, but Bill Wu moving away and trying to write by long distance was a tribulation.

I next chatted with fan Richard Brandt. When I asked Richard why El Paso was the *only* major city in Texas that Westercon could be held in, he explained that it had to do with time zones. For a location to be eligible as a Westercon site, it has to be in either the Pacific or the Mountain time zone. (Westercons are regional conventions traditionally held at or near the West Coast.) As luck would have it, El Paso is just 90 miles inside the Mountain time zone boundary, instead of being in the Central time zone to the east.

Like I said, El Paso in '96 parties nightly in Room 3013. Check it out!

## POCKET DRAGON PREGNANCY HOAX EXPOSED!

### "Pocket dragons aren't hatched from eggs"

*explained Scribbles of the Pocket Dragon Union.*

*"They form spontaneously from the accumulated lint and fluff in old English tweed jackets. This is yet another curious attempt to discredit pocket dragons' appetite for ice cream & pickles."*

**Department Heads:** Please hand in a list of names of people who worked for you and the number of hours they worked. Please turn this list in to the Volunteer Desk by noon! If we don't have the list, they can't get the shirts!

(And *nobody* likes a naked volunteer!)

### Attention Collectors!

Two collectors' items will be *auctioned* off as the last two offerings at the Art Auction. They are:

- a limited signed and numbered boxed edition of James Lee Burke's *Dixie City Jam*.
- a collectors' set of Magic alpha cards

All money will go to RIF (Reading is Fundamental) and the Los Angeles Public library. Both offerings are currently on display at the Book Exhibit in the Pavilion.

The Art Auction will be on Monday, July 4th, at 11AM in the Pavilion.

*Last minute addition:* 2 signed Real Musgrave prints.

### Everyone Come to the Book Exhibit Raffle!

The Book Exhibit Raffle, proceeds of which will go to RIF (Reading is Fundamental) and the Los Angeles Public Library, will be held on Monday, July 4th, at Noon (after the Art Auction) in the Pavilion. Tickets can be purchased at the Exhibit from 10AM-11AM on Monday and just before the Raffle begins.

Everyone should come to this unique event. There will be a lot of fun and a few surprises.

Come and see how many packets Seth wins (for an explanation of this, consult someone who has been to a Lunacon or last year's Westercon).

### The Book Exhibit Raffle and How it Works

The books will be on exhibit in the Pavilion until 11AM on Monday, July 4th. At that time, they will be put together into packets worth approximately \$150.00 apiece. The number of packets so created will determine the number of raffle winners.

On Monday at 12 Noon (or after the Art Auction, if it runs over) in the Pavilion, we will raffle off the packets. **Someone with your ticket must be present to win.** When a person's ticket is declared a winner he/she will then pick a number to determine the order in which they will be able to choose a packet. Thus, the first person whose ticket is called at the Raffle may not end up being the first person to choose a packet (the person who picks number 1 at gets that honor).

When the Raffle is over, all the winners will go to the Book Exhibit area. There they will be given time (10-15 minutes) to examine the packets and decide which ones they would like to have. They will then be lined up according to number. Number 1 will go in. He/She will be allowed one minute to choose their packet. At the end of one minute, number 2 will be allowed in, then a minute later number 3, etc. until all the packets

are taken.  
That's how it works.

### Westercon Business Meeting

The Business Meeting of the 47th West Coast Science Fantasy Conference met at Noon Sunday in the Forum room, described by Business Meeting Chairman Bruce Pelz as "the second-best room in which a Business Meeting has ever been held." (The best being the knights-of-the-round-table Student Senate room at Westercon 44 in Vancouver.) Assisting the Chairman on the podium were Parliamentarian Ben Yalow and Secretary Elayne Pelz.

The first order of business was the report of the Westercon 49 site selection ballot counters. After announcing the results (El Paso won, see *Times* #5), Site Selection Administrator John Lorentz yielded the floor to the co-chairs of the newly selected 49th Westercon, Richard Brandt and Fred Duarte. They announced that Westercon 49 will be named "ConDiablo" and distributed copies of Progress Report Zero. Drop by their table in the Fan Tables area for details.

Their being no pending business left over from last year, the meeting then turned its attention to new amendments to the Westercon Bylaws. First up was an amendment which modified the hours during which site selection must be open. Under existing rules, site selection must be open for at least four hours between 6 PM and Midnight on the final day of voting. The motion changed this restriction so that site selection must be open at least six hours between Noon and Midnight on the final day of voting. This means site selection could close as early as 6 PM on the final day of voting. The motion's backers (which it must be noted, include this reporter) argued that it was a waste of time to force site selection to be open until at least 10 PM, even when the election is uncontested. Opponents argued that allowing this

CELESTIAL MECHANIC # 3

change would prevent dealers from being able to vote. After further debate, the question was called and the motion passed 24-8. Because the motion passed by more than a two-thirds vote, the change takes effect at the end of this Westercon and will be in effect at next year's Westercon in Portland.

The next motion modified the default voting fee from the existing US\$15 to US\$20. While the default fee can always be changed by the unanimous agreement of the bidders and the administering convention, if those parties cannot agree, the default fee must be used. After a short debate, this motion passed by many to few, as with the earlier motion, it passed by more than a two-thirds vote and takes effect at the end of Westercon 47.

John Lorentz then addressed the meeting and observed that since the major rewrite of the Westercon Bylaws two years ago, Business Meetings have lost much of their entertainment value. He then moved to replace the phrase "traditional, but not obligatory" with "traditional, but not mandatory" everywhere it occurs in the Bylaws. After much debate and silly suggestions, the motion was referred to a committee (Seth Breidbart, David Berry, Ed Green) with instructions to report back next year in Portland.

The Committee to Create A Report on Making Westercons Easier to Administer (aka "the Clue Committee"), which was appointed last year, reported that it hasn't done anything yet. The meeting moved to commend the committee (John Lorentz, Kevin Standlee, Seth Breidbart) for its actions and to continue it for another year.

The meeting then adjourned at about 12:30, with many people regretting that there wasn't more substantial business to discuss.

### Tip Your Maid

Don't know how much to leave? A dollar per day per person. (At the very least, a dollar per day per bed.) This goes for crash space cadets too. Believe me, the maid won't complain about the implications of a \$6 tip each morning.

### A Talk with the Doc

Doctor Jane Robinson is a biologist and paleontologist who nonetheless finds time to write songs with her partner, a singer/songwriter. They've created several filktapes, which pave their way to conventions.

Jane has a lot of fun at cons, seeing things and going places she wouldn't see otherwise. Here at Westercon, Jane has followed the Dinosaur theme. To quote Dr. Jane, she's singing to a captive audience.

The Doctor's repertoire includes such hits as "Tyranosaurus Lullaby", "Dig a Big Bone", and "Out of the Clear Blue Sky" — but nothing with Barney in it [thank ghod]. The music may not make MTV, but it's funny stuff and ought to be popular with Dr. Demento.

### "Liftcon" Fever Takes Flight!

Quick on the draw in response to the elevator emergency that trapped a westercon committee member and 9 other fans in the elevator last night (see issue 5 for details), those weirdoc wonderful people in the Art Show came up with **Liftcon** badges. The motto? "Can't get it up, can't get it down."

Participant badges were issued to the ten, and many *Observer* badges have also been seen wandering the halls. We're told it's all Gary Louie's fault, so you can probably blame these wonderful "collectables" on him.

Meanwhile, sources have denied any connection between the elevator incident and Vice-chair Danise Deckert's "Bathroom Kidnapping" (also issue five), even though *two* committee members have been trapped. And so it goes....

### Committee Member Doomed to Poverty

The scourges that continue to plague Westercon's committee were further exemplified today when Sgt. Ed Green of the Volunteer desk was bankrupt and driven to begging for change and photo-opp's this afternoon. (Actually, all \$36.85 plus 50 pence was donated to R.I.F., but we think Ed might have taken 20¢ to call the local mental institution.)

Later Ed was joined by Larry Niven who was signing autographs for food.

If you missed Ed's disgusting display this afternoon, photos will be available in San Gabriel A.

### Next Year in Portland!

As Conozoic - Western 47 winds down, it's time to turn your thoughts and plans to next year's Westercon in Portland Oregon. Buy your membership now before the rates go up. **\$35 until July 15, 1994.** \$40 until December 31st, 1994. More later. Special children's rates. Lots of Children's programming and child care. We will be at our table Monday until the Pavillion closes to answer your questions or sell you a membership.

Westercon 48 thanks Eric Simonson for his transportation assistance in the wonderful adventure of party supply buying and Chaz for his wonderful assistance (and equipment) in producing our party flyer. And, speaking of help - we can use your help - committee, assistants and staff are still needed, please talk to us about what you would like to do. Thank You.

## Sunday Cabaret

Lynn Gold, Filk Singer, sat in on the Cabaret this eve which included the talents of Rick Foss, as M.C., Wolf Foss, Singer and Storyteller extraordinaire, and Omaha Cat Dancing, a very graceful exotic dancer.

Lynn's songs included "(He's) Not On the Net," and "I Lost My Baby on the Information Highway." Enthusiastic audience members got into the act by becoming Lynn's "backup singers." May have created something with which to take "on the road." ;)

Before Omaha started her dancing, the minors in the room were invited to leave, and almost every adult male scooted up to the first row. (So's to see every nuance and expression of the dance.) She danced to "Black Unicorn" and Berlin's "Sex." I did notice at least one woman taking the opportunity to peruse her *Pterandon Ptimes* quite carefully (not wanting to miss any later panel, movie or discussion group). Omaha executed her movements with ease and grace and was greatly appreciated by her audience.

After performing an old favorite about the bag piper (this isn't the name of the story but I'm not sure of the spelling of the clan's name) Wolf, with mighty prodding from his brother, was persuaded to tell an old (true) story regarding a face to face confrontation of the furry kind in Alaska. A must hear if you missed your chance last night.

I've never felt compelled to say this before, but I've never been so impressed with a hotel staff. ## Every 12 Hours: Life in the Newsroom

We made it. We published two (or more) issues a day for the duration of the convention. I'd like to thank Pat Lawrence, Shawn Crosby, Ky Moffet & personae, and Nola Frame-Gray for their near-continuous work. I also want to thank Scott Norton and John Randolph for their strong work as roving reporters, and Josh Weissberger for his "Party Impressions." And Maria Rodriguez sewed up the seams on the dinosaur-fabric sashes that we gave out (the red ones and green ones, as distinct from the ones that Ed was giving out). Good work; I couldn't have done that when I was 9.

And, I'd like to thank the artists that sent me art for the newzine. I couldn't use all of it; I didn't even have enough room to use one from each. Nevertheless, without the inspiration from Real Musgrave, April Lee, Sherlock, Diana Harlan Stein, Michele Ellington, Roy D. Pounds II, and Steven Firchow, the newzine would have been a much less interesting newzine. And we had Flavius III bringing art (unasked), and Greg Bilan with quick sketches on site. This is the first time I've used art in a newzine, and I plan to make it a regular part of my operation.

Lynn Boston helped develop the tabloid headlines. We'd like to thank Elayne Pelz, Tristan Anderson, Kathy Sanders, and of course Real & Muff Musgrave for being such good sports about it. More behind-the-scenes notes in issue #8.

Thanks, Lynn, for patience and forbearance.

**From the Smoofing Zone**  
Fan Table Report

Layered between the Dealers Room and the Art Show was that twilight zone of the Exhibit Hall known as the Fan Tables Area. Here, representatives of various groups staffed informational tables where you could find out about (and join) other conventions and future Worldcon and Westercon bids. Also located here was the Westercon Site Selection.

Gary Louie was responsible for this area of the convention, and those of us who had made arrangements with him in advance were pleased to discover that not only had he marked all of the assigned tables rather than making it pot-luck, but he also provided banner signs for each table. We had to assemble the signs ourselves, but he had thoughtfully provided a paper-cutter and tape for that purpose. (Hm, that masking tape looks like it was some of the surplus from the MagiCon Garage Sale...)

Located next to Site Selection was the Westercon 48 (Portland) info table, which was good, because the head of site selection, John Lorentz, is also the chairman of Westercon 48. Across the way, the El Paso in '96 Westercon bid shared a pair of tables with the San Antonio in '97 Worldcon bid, which likewise allowed them to pool their efforts. Further pooled efforts were seen by Science Fiction Northwest (promoting the Seattle in '97 Westercon bid, Norwescon, and other Seattle-area SF cons) and at the ConFrancisco table. ConFrancisco, last year's Worldcon, staffed a table where you could buy leftover sales-to-members merchandise at bargain prices; they also were selling pre-supporting memberships for the Silicon Valley in '97 Westercon bid, opposing Seattle.

The 1994 Worldcon (ConAdian) and 1995 Worldcon (Intersection) had tables, but the 1996 Worldcon (LA Con III) was mostly absent—which isn't surprising considering that most of the people who might be tapped to staff such a table were busy working on Westercon! People interested in conventions sponsored by LASFS or SCIFI were referred to the Dealer Liaison Table instead.

Besides the 1997 Worldcon bid for San Antonio, both of the declared 2001 Worldcon bids (Boston and Philadelphia) staffed side-by-side tables, as did the 1999 Australia Worldcon bid. Absent were the 1997 St. Louis Worldcon bid and *any* of the 1998 Worldcon bids (Boston, Baltimore, Niagara Falls, New York), although Baltimore did hold bid parties.

A few other groups staffed tables for short periods, and ConFurance had a table as well. For a change, there was a surplus of tables, so tables were assigned to Cheeko (Chico, California in 2001 Westercon) and RichterCon (Northridge in '98 Westercon, although those bids' representatives were not able to staff the tables, being needed elsewhere.

In short, if you were curious about nearly any fannish convention and bidding gossip, or if you wanted to check on the status of your Worldcon or Westercon membership for future years, this was the place to be. While this activity is probably looked upon as boring by most, if you're into the ongoing convention running and bidding cycles, it becomes your base of operations for the weekend and a good place to watch the convention come to you.

I would like to thank the following people for duty above and beyond: Barb Baernson, Kris Bauer, Carol Ann Cranston, Mistie Joyce, Gordon Saunders, and my second shift crew chief, Carolyn Kinkead. The team of Jim Daniel and Fred Louaillier did yeoman's work at the pre-reg desk. Tony Benoun stepped in at a crucial time and saved us from accidentally laminating ourselves in the scurry. I could not have done the job (or survived the weekend) without any of them. There may be others, but they've all blurred together. Thank you one and all.

## Great Job Everyone!

I just wanted to say thank you to the Committee, Staff and Volunteers of Westercon 47. You all did an excellent job. From all reports I've received, the Con was a success and people had a good time, which I think is the most important thing. Of course, we also broke even, which some may consider to be an even more important thing! Committee members should make sure to turn in their lists of staff and volunteers so that Genny and I can begin to refund memberships.

## Petroglyphs: Letters to the Editor

**You really did a bang-up job** on the *Ptimes!* I would sit and read "last night's" issue and "this morning's" issue over breakfast (with ish 1 on hand to figure out the secret messages!). Got a lot of giggles as well as a lot of good news about the con from all issues. I believe that this is actually the first time I was able to get copies of all of the at-con newsletters at *any* con I've attended (and that includes ConFrancisco)! *Great job!* ... the *PP* was ever so much more *fun* to read than CF's newszine! I mean, I actually had the *time* to sit and read *PP* whereas I didn't have the time to read *Norton [Reader]*.

Wilma Meier

**You might also want to pass along** to your program book person that they left out the name of the Westercon 46 artist GOH, George Barr. I don't know if they included toastmaster, but if they did, then they also left off our toastmaster, George Alec Effinger. It's water under the bridge as far as I'm concerned, but I would like future conventions to get the correct information.

... I was disappointed that there were no paperback book dealers at the con... There were plenty of used paperbacks, but very little that were new, and certainly no dealers whose stock consisted solely of new paperbacks, or new paperbacks and hardcovers... Oh well, I guess I'm feeling my age; time was when there were nothing but booksellers in a dealers' room.

Linda Deneroff

**I might add that I was really impressed** with the *Ptimes* at Westercon. Chaz and his crew obviously did a lot of work, and it showed. I know about that no-sleep business, though—been there, done that, bought the t-shirt (at BayCons and SiliCons past).

My public apologies to Chaz for flaking out and not doing party reviews as I had promised to do. Party Reviewing is harder than it sounds, and I wasn't up to the task (although maybe I should have been—I wouldn't have had the time to lose \$20 at the Haldeman Seminar).

On The Other Hand, I was disappointed that there were no hoaxzines. Was Seth off his feed or was the strain of buying \$400 worth of book raffle tickets too much for him? <grin>

Kevin Parliamentariasaurus Standlee

**Let me commend you** on an excellent newsletter — certainly the most accessible in my 22 years of conventioning.

Ed Rush

... **I'll insert my own opinion** of the *Ptimes*. It was almost as good as *The Fossil Record*. © (For those who don't know, I produced the last L.A. Westercon daily newszine, so I can't publically admit that anybody else did a better job.)

Seriously, the biggest complaint I heard about the *Ptimes* was that the typesize was a bit small for people with poor vision. Somebody (I disremember who), suggested that use of a larger type with less white space and leading would permit the inclusion of just as much information but in a somewhat more readable format.

Dan Deckert

*It sounds like your friend might be holding a common misconception about point sizes. When you make type larger, it gets wider as well as taller, and we can fit fewer words per line.* Chaz

## 📖 LASFS Literature Night

LASFS, Los Angeles Science Fantasy Society, has been meeting Thursday nights for the last 60 years. Meetings begin at 8pm at 11513 Burbank Blvd. in North Hollywood, between Lankershim and Colfax. If you're curious come on by.

On the last Friday of every month we get together at the LASFS clubhouse and read to each other. Just about everything has been read in the past, prose and poetry, fiction and nonfiction, classics and modern, original and not, magazines and books, computer printouts and handwritten pages, and funny and serious. The only request we have is keep it short. If what you're going to read is more than 5 or 10 minutes long check with that night's audience and get their permission first. If you're not sure how long it is try a practice reading by yourself to see. A practice reading can be a good idea anyway, if you want to do the material justice.

See you there!

## 📖 Gripe Session

In *Ptimes* #4 we printed "*Renegade Bid Upsets Site Selection — Cicely, Alaska in '96 Expected to Run a Close Second.*" Then in issue #5, we reported "*Cicely in '96 Bid Eliminated!*" Someone at the gripe session wanted more information on the bid's failure. We carefully explained that Cicely was the fictional setting of tv show *Northern Exposure*, and wouldn't qualify for a 1996 Westercon because of the north/south zone rotation... and our chair Noel Wolfman said that while we have our lighthearted business at Westercons and in the bidding process, we do draw the line at mythical sites.

## This Just In From Mars

The openly heterosexual former football player, O.J. Simpson, was arrested today and charged with the murder of his former wife and her companion. The arrest sent shock waves throughout the heterosexual community, as one of its most popular icons revived old stereotypes that surround the heterosexual lifestyle. "Wife-beating is not equivalent to being heterosexual," said Joe Eightpack, a spokesman for the Straight Alliance Against Defamation. "While it's true that some heterosexuals engage in spousal abuse, it's still no more common among straights than among gays." But opponents of heterosexual rights seized on the incident. "Every year, hundreds of thousands of women are victims of this immoral subculture," said the Rev. Donald Gaylord, spokesman for the Concerned Homosexuals of America. "There appears to have been a heterosexual ring in Los Angeles, including the police force, that covered up this depraved activity for years. I'm particularly concerned about saving our children from this kind of example." Statistics suggest a large minority of heterosexual males are involved in some kind of domestic violence: one in four heterosexual relationships involves violence, with 2 million to 4 million women affected each year. Researchers who claim that heterosexuality is a choice and not, as some believe, involuntary, argue that this makes it even more important not to give social sanction to the activity. "It's not heterosexuals that we're opposed to," argues Gaylord. "It's their self-destructive lifestyle."

## Phannish Parties

Sunday, the last evening of the con, I stumbled into a wonderful party: *Australia in '99* (for the Worldcon in Melbourne) bid. But to get there, fellow newslizard Moffet & I stumbled into a disappointment first.

The plan was that I, Moffet, and husband, Louis Gray were to use a programming item as a rendezvous point. And the name of the item was: *The Neuro Trash Kaffe* (held downstairs in the Plaza). Hey, the three of us like parties, and this Cafe thing looked like fun plus it was part of Westercon's official programming as well. Sounded like a good meeting point to me. Alas, I never had a chance to find out what sort of party it was — I couldn't go in. Both my husband & I are noise sensitive and there was some pretty loud music going on. To be fair, the music at the Neuro Trash Kaffe wasn't *that* loud (hey, I've been at Mexican dance parties that were much louder) but the sound level was high enough to prevent me and my friends from doing the one thing that we come to parties for — to be able to talk with other fans.

Sometime later, hubby Louis and I checked out the Aussicon in '99 party. Since both of us have been to Australia for a Worldcon, and I occasionally get SF fanzines from the land Down Under, this party was a must see.

We had a delightful time. Coming in, we were met by a small table where fen were selling pre-supporting memberships for this Worldcon bid. On hand was Aussie fan Eric Lindsley, regaling us with stories of fannish lore. In the adjoining room I was met by yet another fanzine fan, Dick Smith, who recognized my name and wanted to know if I would be willing to submit... cartoons for their SF fanzine, *Stet*. After presenting me with the latest copy (I like bribes like that!) he introduced me to his wife & Editor of *Stet*, Leah Zeldes Smith. Since it's not every day that I get (1) handed a fanzine in person and (2) have the opportunity to draw and give out cartoons in person, I immediately took out scratch paper and a fountain pen and drew up some toons for their zine. (How to get a SF zine? Promise the editor "the usual," a "loc" or letter of comment — a letter telling what you did & didn't like about the fanzine, or artwork, or an article.)

A while later, I left this party (temporarily) in order to track down Moffet, because I wanted my fellow newslizard to check this party out. For not only did this party have good ambience, party snacks (you could even try Australia's fave food — their answer to peanut butter — vegamite), alcoholic drinks and a neat punch, this party even had... *chocolate!* There was a hard, bittersweet chocolate, and

a soft chocolate that was actually a raspberry covered with chocolate. Delicious. You also got a choco-caramel koala bear when you bought a pre-supporting membership.

The evening wound down nicely with local, but seldom-seen L.A. fan, John Hertz, conversing about a little of everything, from novelist Goergette Heyer and how her writings got him into starting up Regency dance ("Her books are fannish!") to history, and even a little science fiction. It was a delightful close to a wonderful party.

### Nola Frame-Gray

*I'd like to point out that Neuro Trash Kaffe was not an official Westercon programming event. The group throwing the party approached the concom, and the committee decided to give them one of our function rooms to minimize potential problems with the hotel and a party that otherwise might be too big and too popular for a conventional suite. ## Comic Book Reviews

### The Glitzyluffles #2 [D+]:

The output of Marshmallow Fluff Studios has increased noticeably since they relocated to the 40-acre site of an abandoned strip mine in Kentucky. This is one of their new titles aimed at the 9½-to-10 market. The story line is poor, but the art is rather good for Fluff, which isn't saying much. In this issue Pitzo announces to the other Glitzyluffles that the evil Nasto has stolen the Magic Pumpkin from the Garden of Delight. The Glitzyluffles are thrown into consternation. Pitzo and Putzo lead an attacking force to recover the Magic Pumpkin but are captured by Nasto. Meanwhile Zitzo goes on a perilous journey to consult the all-knowing Fluffy Fairy in Fluffalonia. This is really just kid stuff, I'm not going to buy #3.

### Fluffbotic Combatroids #2 [D+]:

When I went to buy the first issue of this book, I had to stand in line behind a horde of foul-mouthed sub-teens, and by the time I got to the counter, *F.C.* was sold out. On the delivery date for #2 I reached the store at 6 A.M., but when the store opened at noon there were still no other customers. Anyway, the art in this comic is poor, but the story line is rather good for Fluff, which isn't saying much. In this issue Vrandbox announces to the Combatroid Team that the evil Magoom has stolen the Aludionic Energy Crystal from the Sphere of Power. The Combatroids are overcome with indignation. Vrandbox and Zandbox lead an attacking force to recover the Energy Crystal but are captured by Magoom. Meanwhile Bhandbox goes on a perilous journey to consult the all-knowing Professor Fluff on the planet Fluffzog. It's all mindless but entertaining—I can't wait to find out what happens next!

## We All Have Our Stories

This is my impression of Sunday in the newsroom.

"It's 12:00, presstime, what have we got?"

"Masquerade results, more stuff that's already on the computers, some party listings, and a late-breaking story about Ed Green panhandling."

"The laser-printer's running out of toner!"

*(Knock, knock) "Can I get something printed in the newszine?"*

"There's too much to print. Can we split it into two issues?"

"I shook the laser printer some more, but it's no use."

"We'll print two issues. When this one's ready, you two take it down to the printers and I'll finish the other one."

*(Knock, knock) "Hey, Ed's on the floor begging for change!"*

"It's 2:00. Let's borrow the laserprinter from Con Ops."

"We've got snapshots of Ed and Larry Niven, Shawn can draw it up for our last issue."

*(Knock, knock) "Have you gone to press yet?"*

"This thing takes forever to print!"

*(Knock, knock) "Are you done with our laserprinter yet? I need some party flyers."*

"Take our laserprinter, maybe you can shake it up and get some more mileage out of it."

*(Knock, knock) "Have you heard about Ed and Larry?"*

"It's 4:00. We've got 6-A almost ready to go, but there are some egregious typos!"

*(Knock, knock) "We need our laserprinter back, yours is stone cold dead."*

"Take my dot matrix printer, it'll get you through."

*(Knock, knock) "Is it too late to put something in the newsletter?"*

"It's 6:00. We've got the first issue, you guys take it to the printers."

*(Knock, knock) "Ed and Larry raised over \$30 in spare change today!"*

"I wish this borrowed laserprinter would finish, we need to get this out."

"We're back from the printers. We'll distribute 6-A, is 6-B ready to go yet?"

*(Knock, knock) "I need this program change in the evening newsletter, have you printed it yet?"*

"I'm almost done printing out the masters... There! Let's go!"

*(an hour later)*

"New Pteranodon Ptimes! Get your newsletters here! 6-B, hot off the presses!"

*"Where's the watermark? It doesn't have 6B in big letters on it!"*

## A very bad sign

The little shopping center near my home in Amherst, Massachusetts has a parking area with two entrance ramps. One entrance has a "No Exit" sign because a bend in the road makes it difficult to see the oncoming traffic. However, drivers regularly exit via this ramp, surprising pedestrians, cyclists, etc.

The shopping center administrators have taken steps to combat this problem by adding more signs with truly hysterical results. Right now, if you drive to this non-exit, you are greeted with the following barrage of traffic information attached to a telephone pole...

WRONG  
WAY

PLEASE  
TURN  
BACK

NO  
EXIT

PLEASE

ONE  
WAY

You would think that five traffic signs, including a "Please" sign (has anybody else ever seen one of these??), would deter the lawbreakers. Not a chance!

I point out the signs to my out-of-town guests, and they shake their heads with wonder. Massachusetts drivers are truly a force to be reckoned with.

## It So Seldom Rains on the Moon

Hallways are silent, the city's asleep.  
Night's a tradition we cling to and keep.  
Out for a walk as I sort through a heap  
Of memories, thoughts out of tune,  
Like running through rain by a seashore in June —  
But it so seldom rains on the Moon  
And the memories tied to the sea and the rain  
Remain ...

It says in the schedule it's autumn today  
But why even bother I really can't say —  
Freeze-dried December and vacuum-packed May  
Wrapped up in a sterile cocoon —  
Atmosphere dome like the bowl of a spoon  
And it so seldom rains on the Moon  
But the memories tied to the sea and the rain  
Remain ...

So why did we come here and why don't we go?  
It's something of freedom and room for to grow —  
We can't quite explain it, you may never know  
Or else you may see it quite soon —  
We're not going back to that big blue balloon  
Though it so seldom rains on the Moon  
And the memories tied to the sea and the rain  
Remain ...

Don't let people drive you crazy when you know it's within walking distance.

As soon as we started programming, we found to our surprise that it wasn't as easy to get programs right as we had thought. Debugging had to be discovered. I can remember the exact instant when I realized that a large part of my life from then on was going to be spent in finding mistakes in my own programs.
