

# Program Update

## Issue Number 1: Wednesday Morning Edition

(Incorporating changes from Pocket Program to Tuesday, 8/4, 8pm. Next edition expected Thursday morning.)

This is the first of our daily program schedule updates, which we hope to distribute daily at the newsletter distribution locations. Each edition will include a corrected copy of that day's schedule and a list of all changes since the last update. (This edition is substantially longer than future editions will be because it includes all changes made since the Pocket Program went to the printer on July 20.) We will print each edition of these updates on a different color paper, to help you notice when a new issue is available.

**Neutrino News from AMANDA** (Wed., 1pm, CC 339-342). Please note that AMANDA stands for "Antarctic Muon and Neutrino Detector Array" (not "Arctic Moon and Neutrino Detector Array" as appeared in the Pocket Program. The Programming staff needs more sleep...)

**Combined Charity Auction** (Fri., 3pm, CC 339-342). Please note that combining multiple charity auctions is not being done, as stated in the description, for the first time ever at a Worldcon. At least one other Worldcon has done this. (Free Constellation II ribbon to the first person to tell Program Division Manager John Pomeranz what Worldcon that was.)

#### OTHER CHANGES

**Typo on Guest of Honor Listing.** On page 87 of your Pocket Program, we accidently combined the text that was supposed to highlight the respective Guest of Honor Speeches by C.J. Cherryh and Stan Schmidt. Please note that C.J. Cherryh's Guest of Honor Speech is on Saturday at 11am in Convention Center Room 339-342. Stan Schmidt's Guest of Honor Speech is on Saturday at 3pm in Convention Center Room 337/338.

We misspelled the names of program participant's Steve and Ann Lesnik in the Pocket Program.

We failed to use the preferred name for program participant G. David Nordley in the Pocket Program.

We misspelled the name of program participant Lynn Prentis in the Pocket Program.
