

Boston in 2001/Noreascon 4

**P.O. Box 1010
Framingham, MA 01701**

Dear Friends and Supporters of Noreascon 4:

We hope you will be able to join us for the Boston in 2001 parties at L.A.con III, particularly to help celebrate the silver anniversary of Noreascon.

If your plans do include the Worldcon, we'd like to (shamelessly) solicit your help in whatever ways you might be willing to offer. Whether it's helping us to set up, run, or even close (for the night owls) our parties, or representing our bid at our bid table during the convention, you'd have our undying gratitude and all of the chocolate we can stuff into you (*grovel* *grovel*).

We know you might not be planning to come to Los Angeles, but we want you to understand your significance to our continuing efforts to host the 2001 Worldcon. Your good wishes, your company at our parties at other conventions throughout the year, and your offers to help (*subliminal hint*) are important to ensuring our success.

And please, keep in touch. Let us know what you think we're doing right and what we can do better. Pop into our World Wide Web page to keep up to date at <http://world.std.com/~sbarsky/b2001.html>. Drop us email at our info@mcfi.org address. Or trust your note to snailmail at our post office box.

Thank you for your good wishes and your support.

Best regards,

The Committee for Boston in 2001
