## **Worldcon 76 in New Orleans, August 23-26, 2018**

Let's hold the 76th World Science Fiction Convention on the 300th Anniversary of the founding of the Crescent City. The convention will be held in downtown New Orleans at the Hyatt Regency: a four-diamond hotel that can contain the entire Worldcon under one roof.

New Orleans is a world-class destination city, convenient to reach by air or train, renowned for its music, food, museums, architecture, and *joie de vivre*.
