Well, people, here I am again. Wecome to the official meeting of the New York Fanoclasts, and all that rot.

This Degler ain't goin' ta be so big as the one that you seen last week, mainly because I been spendin' the week workin' on my room an' gettin it ready to show off to you people. On Wednesday and Thursday I painted the place a color which is known as "Champagne Beige", And how about that?

And that's all the mailing Comments.
Here are two letters which I received from Dan Goodman. Read 'em.

Dear Andy,

You're in charge of the enclosed letter because, as host to the next Fanoclast meeting, you're an official of sorts. No need to save it for Ted White-He's getting a nasty Post card.

Your amateur psychoanalysis of me misses so many obvious points as to suggest that your are completely inept at judgeing people. I advise you to stick to technology, and leave psychology alone until you deal with some of your own problems.

"He felt Rike going up to see at the JAK he had carved into the ballith-wood frame was still there. But he abandoned the plan. The way his luck was running, he'd run into a

batch of children and be accused of being a potential child molester, or something like that." From The Bloody Sun by MZBradley (Ace F-303): p. 37. No comment needed.

I bless you in the name of Jeschu, the son of Miriam; Dan Goodman

Dear Sirs.

Had I been invited to join Fanoclasts, I would have declined. For one thing, Tei White is too prominent a part of Fanoclasts for my taste. Therefore, the blackball was

unnecessary. However, it was justified.

Of course, the blackball does not extend to FISTA fista is a separate club, most of whose present memebers are also members of Fanoclasts, with it's own rules. Anyone joining Fanoclasts does so with the knowledge that he is passively anyone members are also members of Fanoclasts. a blackball; anyone joining FISTFA is passively accepting it's open house policy. If anyone finds himself unable to be polite to me, that is his own problem.

I feel obliged to blackball Ted White from the Afro-Mabtian Friendship Committee. To soften this blow, he will get a lifetime sub. to Volstead-which is now a one copy zine. It seems odd, incidentally, that no one saw the rather obvious pun in that title).

It was an honor to be considered for membership in the Fanoclasts, even in such a ntbnoqu mee back handed manner.

See you at NYCon III, Daniel Steven Goodman

Don Bensen of Pyramid just invited me over to his house for the Hydra meeting, but I had to decline. How's that for egoboo?! gray ink you're ordne? It

When gazing at the moon during the summer night the astronomers sometimes get the feeling that they are being drawn up onto the surface of the unknown world, up to mysterious and fascinating lands of gods and goddesses long that dead by all but the true inhabitants of the isle of Bali, that mysterious mote on the surface of the Pacific ocean, that body of water which will shortly dry up and be inhabited by the frogs that live where great bodies of water like the East river dry up and the fregs are exhumed from the mud and the filth and the slime to rise to great heights in their frog empires, heights which any other stick in the mud(liter ally) frog would not dream of mainly because such frogs do not dream, but only stick in the mud...

The astronomers have the eerie feel ing that they will be drawn up onto the surface of the shining globe but they are not, for just as they feel the first bonds of g gravity give way and the moonlight draw them from the mortal ken they always give a great sigh of wondermment, as all astronomers are wont to do, and they are indeed surprised when the lifting force drawing their bodies flees from their mou hs, released from it's boundaries, in stupendous coral colored belchs that shake them to the core and leave them gasping for breathe in the awful shining stench of the world beyond their esophagi, beyond even the range of travel with helium filled water wings in search of people to vote for terry carr for TAFF, the wonderful mam who is winging his way to california to belch at Large william, of's drunken sencor...
