

CUMULATIVE SUBJECT INDEX TO

OPUNTIA #1 TO #425

compiled by Dale Speirs

References are to issue number:pages. For example, 12.5:3-6,9 means issue #12.5, pages 3 to 6 and page 9. Between issues #1 and #71.5, whole-numbered issues were sercon, x.1 issues were reviewzines, x.2 issues were indexes, x.3 issues were apazines, and x.5 issues were perzines. #71.5 was the 247th issue of OPUNTIA.

The next issue after it was numbered #248 and thereafter OPUNTIA's are numbered in the ordinary way. The issues from #72 to #247 inclusive do not exist. Beginning with #248, there was no longer any distinction between sercon, reviewzine, apazine, or perzine, and the editorial copy was unsorted.

For individual authors, see under Writers.

For individual actors, see under Actors.

For individual directors, see under Directors.

For individual artists, see under Artists.

For individual editors, see under Editors.

SF = science fiction

As much as reasonable, I have tried to cross-reference subjects. You can also use the Find function to locate a subject. Trivial reviews and ephemeral items are not indexed. Literary and video works are indexed by title, not by author or screenwriter.
