A COMPREHENSIVE INDEX TO THE SFPA

Mailings 1-16

A COMPREHENSIVE INDEX TO THE SFPA, (Mailings 1-16) is prepared by Dave Hulan, 19018 Bryant St., Apt#2, Northridge, Calif, 91325, for the 17th Mailing of the Southern Fandom Press Alliance. It is Jotun Publication #109.

The format I will follow in this index is fairly simple. The first section will essentially reiterate the contents listings of the O-O's, plus any postmailings which I have. The second part will go by member, listing all of his own zines and all of his appearances elsewhere in mailings or postmailings of the SFPA. The third part will list zines alphabetically by title. Members will not be listed alphabetically in their section, but rather by membership number - I have assigned these numbers on the basis that if two or more individuals join as of the same mailing, the first one to get his zine in to the OE gets the first number. Postmailings which I did not get (there have been at least two I know of) are not included, because I consider that anything a member doesn't get is not an official part of SFPA, unless the member requests that he not get it (as might be the case with Dian's portfolio last mailing). There are two additional zines which are not indexed in part because if I have copies of them I can't find them - the SOUTHERN APA PLANNING ZINE #3 and ISCARIOT #10. I'm pretty sure I have the Ist around somewhere, but I'm pretty sure I lack the planning zine and in any case I don't know how many pages each contained or who contributed to Ist 10. Other than that, I have tried to be as accurate as possible, but I'm fallible and may have made mistakes. If you'll point them out I'll try to get an errata sheet out next mailing.

This index is much less neat than I would have liked to have made it, but it at
 least includes all of the pertinent data I can think of, although you might have
 to search for some of it here and there. Anyone who would like to re-publish it
 in neater form has my permission and best wishes. Symbols for types of repro
 are standard - m=mimeo; h=hecto; d=ditto; o=offset; s=special (anything else).
 Everything published in SFPA's first four years was 8 1/2 x 11 in format.

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research. It also provides a brief overview of the methodology used in the study.

2. The second part of the report is a detailed description of the study area. It includes information about the location of the study area, the population of the study area, and the characteristics of the study area. It also discusses the data sources used in the study.

3. The third part of the report is a detailed description of the study results. It includes information about the findings of the study, the conclusions drawn from the findings, and the implications of the findings. It also discusses the limitations of the study and the need for further research.
