### Programmed Games Information

#### Rail Baron Information:

**Description:** Rail Baron is more than a game, it is a bone-deep addiction. While it has some of the same elements as Monopoly, buying and selling and dice-rolling, no other board game allows such scope for betrayal and skulduggery, all within the rules.

**Other Information:** The game of Rail Baron is being run as a tournament. A maximum number of 16 players can compete for the coveted Rail Baron Trophy. Four heats in two sessions will take place with the winners of each heat going through to the final. Copies of the Rail Baron tournament rules are available from Registration.

#### Star Wars Information:

**Description:** The peace of the side streets of Gadrin is shattered by an explosion and gunfire, emanating from the Blue Star Centre, home to a group of Cerean-led philosophers. It sounds like some Heroes are required... A roleplaying-intensive adventure for Living Force heroes levels 1-6.

**Other Information:** A total number of 12 players can be involved in the Star Wars game at any one session.

#### Robo Rally Information:

**Description:** Robo Rally is a board game of where 2-6 bots try to traverse a factory floor littered with lasers, crushers, pits, flame throwers on top of other players all bent on blasting, burning, squashing, shattering each other on the way to the finishing line and ultimate victory. A good beer and pretzel game where getting victory sometimes comes second to getting a Trundlebot over Cannery Row. Beginner friendly.
