

CAPCLAVE 2019

RESTAURANT GUIDE ROCKVILLE, MD

Welcome to the eater's paradise that is Rockville. This restaurant guide includes 85 restaurants, mostly in easy walking distance of the hotel with a few "worth the trip" exceptions. This guide barely scratches the surface of local food options. Going South on the Rockville Pike (355) will take you to a couple dozen places in the Pike and Rose/North Bethesda area. Further South will take you into Bethesda with tons of places to eat. North on the Pike, which becomes Hungerford Ave, will take you to Rockville Town Center with lots of local restaurants, further up 355 are all the restaurants you remember from past Capclaves in Gaithersburg. Many good restaurants, especially ethnic ones, are in off-road "strip malls". The outsides may seem dodgy but their food can be delicious.

And speaking of the Rockville Pike, be very cautious crossing it. Use the crosswalks and obey the walk lights. Cars speed and what looks like a clear road when you start crossing might not stay that way.

In keeping with Capclave's past policies, no restaurant in our guide lists dodo (fried, roasted, or stewed) on their menu.

So where should you eat? We put *s by restaurants we recommend. Let Capclave know if you like (or didn't like) a specific restaurant for future updates. New restaurants are appearing frequently.

Rockville is known for its Asian restaurants, especially Chinese.
