

Abject, abstruse, and absolute apologies. Also absurd. You'd think I was a rank amateur, not someone who spent ten years of his life in the printing business, not to mention the many copies of fanzines I've turned out. I printed the inside page Way Too Dark for this weight of paper. I would redo it, but I'm already two weeks late getting this out, and the color side took over two days to print. I can't plead ignorance, so I'll just plead ignoble failure and beg forgiveness.

Better Next Time, I promise.

ShelVy

**=FLASH-FLASH-FLASH-FLASH=**

(Goody! This will be on just one side, so I can use bold.)

Good thing this PR was delayed; more news just came in. All reservations will be made thru me. Let me know when you'll get here, how many in your party, when departing, and all that stuff. . . . But doesn't that take care of "all that stuff"??

### **Ignore the motel 800 number!**

The Meeting Room is 32x82, including a kitchen and two bathrooms. It is upstairs. It has chairs and tables, but no PA system. Tim Riley is providing us with that; he has a karioki (sp?) machine with two mikes. (He says nobody has to sing, tho.) Cheryl has two additional speakers, if needed.

There will be a consuite facing the Fulf, plus another room across the hall so that one can be Smoking and one Non-smoking. --Oh, yes; let us know if you smoke.

If it appears we're disorganized, appearances are not deceiving. However, we're working at it.
