

EERIECON 17 VIDEOS

We're back! More of Our Never Ending Quest For The Worst Film Ever Made! More double features that you never wanted! EerieCon is proud to present some of the finest motion pictures ever made. The bad part is: there are some twenty others that really stink!

As usual, Friday and most of Saturday will have traditional live action or lifelike CGI films. Saturday night, we begin All Nite/All Day Anime! If you are not familiar with it, Anime is a very stylized Japanese type of animation far different from "The Flintstones" or "Loony Tunes". While some are okay for children, **MANY ARE NOT!** As most Anime are not rated, we've shown the suggested age levels given by the distributors. Still you might find some teen rated videos to be a bit more violent or sexual than the US ratings. The late night Anime is strictly for adults.

Normally, we try to present items that you wouldn't see on television or in most video stores. We use DVD and Blu-Ray to give you the best image and sound possible. Whether it is something you'd want to see and hear clearly is another matter entirely. The more adult stuff will be shown only late at night. However, the truly childish can show up at any time! We don't show any really explicit films, and please don't bring any in to the room.

After running videos at 20 cons over the years, this is likely my last go round. So, I've brought back some of my favorites, both good and bad. In addition to the carefully crafted, delicately balanced, finely tuned assemblage of scheduled videos; there are over a dozen other genre films available if con-goers should vote a film off the island. Majority rules, please & no adult stuff except late at night.
