

EERIECON 18 VIDEOS

We're back! More of Our Never Ending Quest For The Worst Film Ever Made! More double features that you never wanted! EerieCon is proud to present some of the finest motion pictures ever made. The bad part is: there are some twenty others that really stink!

As usual, Friday and most of Saturday will have traditional live action or lifelike CGI films. Saturday night, we begin All Nite/All Day Anime! If you are not familiar with it, Anime is a very stylized Japanese type of animation far different from "The Flintstones" or "Loony Tunes". While some are okay for children, **MANY ARE NOT!** As most Anime are not rated, we've shown the suggested age levels given by the distributors. Still you might find some teen rated videos to be a bit more violent or sexual than the US ratings. The late night Anime is strictly for adults.

Normally, we try to present items that you wouldn't see on television or in most video stores. We use DVD and Blu-Ray to give you the best image and sound possible. Whether it is something you'd want to see and hear clearly is another matter entirely. The more adult stuff will be shown only late at night. However, the truly childish can show up at any time! We don't show any really explicit films, and please don't bring any in to the room.

In addition to the carefully crafted, delicately balanced, finely tuned assemblage of scheduled videos; there are over a dozen other genre films available if con-goers should vote a film off the island. Majority rules, please & no adult stuff except late at night.

This year's Quest sees a film so bad that I was not going to show it until I found the disc also had a version where the outtakes were edited back in! For our Double Features we have two fighting Vampire films, two teen boy heroes followed by two teen girl heroes. A Triple Feature is three stories from a beautiful Steampunk Anime. Best of the weekend might be **THE UNDEAD EXPRESS** or **TEEN SORCERY**. One final warning: Films may include Disco! Be afraid, be very afraid!

This schedule is subject to both change and bad time management! Remember, cons and schedules don't play well together!

I only find these films. Don't blame me for having made them!
