This convention has much going on, all of which is being done by volunteers*. The convention wouldn't be possible without these amazing people on the committee, working through the year planning and organizing this time. They make my job easier. I'd like to thank them, here, along with my family, for helping me bring this convention to you.

There will be many tasks that need to be done this weekend and some might get done a little faster and more smoothly with your help. If you'd like to volunteer please sign up at the registration desk. Sometimes just chipping in for 15 minutes may be all that's needed.

If you have questions, feel free to ask someone wearing a CONCOM badge. They will either help you or will be able to direct you to someone who can help. I'm looking forward to seeing you all this weekend.

Sincerely,
Joel Phillips

VOLUNTEERING

Minicon is entirely volunteer-run*. No one is paid for helping; even the convention chairs and department heads pay full price for their memberships. This keeps our rates down, but also means that we need your help. Think of Minicon like a big party: some of us are hosting the party, but we're all in it together. How can you help? Well, we're a pretty informal bunch. If you see something that needs doing—perhaps a bowl of chips is empty, or a room doesn't have enough chairs—see if you can get it done. If you're not sure how, ask the department head or nearest person who seems to know what's going on. If everyone pitches in just a little bit like this, the convention will run very smoothly. We also have some more formal volunteering with scheduled shifts. There will be a sign-up sheet at the registration/volunteers/info desk.

Would you like to get more involved in Minicon? Minicon is organized by the Minicon concom (convention committee) over the course of the year. How do you get to be on the concom? Well, if you start showing up to meetings, you're a concom member. Or, to put it another way, we don't really know who's on the concom, but when forced to make a list, we write down whoever we remember being at meetings. Check the Minicon website, progress reports and/or <http://mnstf.org/einblatt> for meeting announcements.

* *Excellent career opportunities for dread pirates*

Help and Information: Ask at the registration/volunteers/info desk while they're open or at the consuite or bar. Also look for department heads or wandering concom members.

Code of Conduct

Minicon members are expected to behave courteously to their fellow members, hotel staff, and other members rightfully have an expectation of an environment free of violence, discrimination, or harassment of any kind.

Definition of Harassment

Harassment is defined as unwelcome conduct or action(s) on the basis of a person's race, color, creed, ancestry, national origin, age, disability, gender, gender identity, marital status, sexual orientation, size, or status with regard to public assistance, although this list is not meant to be exhaustive. Sexual harassment is a type of harassment that includes unwelcome sexual advances, or unwelcome conduct of a sexual nature. Harassment of any kind can include words, gestures, physical contact, nicknames, or any other derogatory or demeaning action(s).

Action

If person A tells person B to leave A alone, or to stop a harassing action directed at or towards A, or at another's request, B is expected to comply immediately. This policy is not meant to prohibit touching, talking or interacting with others, but to remind them that people have different preferences and are expected to respect personal space and remember that consent is not only a real and necessary, but also a welcome and appreciated component to happy interactions.

Minicon members are expected to offer assistance to people who appear to be being harassed, or to seek assistance for them.

Reporting

To report violations of this code, whether or not action is desired, go to the registration desk or call the designated responder there to call a designated responder. If the registration desk is closed, call the number listed on the sign. During the hours posted on this sign, we will answer calls immediately. Outside the hours, we will answer your voicemail and we will respond when registration opens the next day.

Emergencies: In case of emergency threatening life or limb, don't look for us; call 911.

voluntarily removed themselves for consideration for the Hugos this year. Even with that, it would not be surprising to hear Cat's name mentioned at the Hugo Nominations.

Catherynne is drawn to fairy tales and the witches and wicked queens that are ever present in them. In fact, she will be on a panel aptly entitled *"Maenads, Oracles, and Other Madwomen of Myth & Folklore"* to discuss it.

In 2006, Catherynne coined the term "mythpunk" to describe a subgenre of mythic fiction which starts in folklore and myth and adds elements of postmodern techniques. Several additional authors have adopted the "mythpunk" label. The "-punk" label is meant to show it is an exploration of the myth genre, possibly to the extent of "breaking" it. Her dark fantasy novels are described as "chewy" by Seanan McGuire.

The combined elements of fairy tales, witches, wicked queens and mythpunk (co series) and not so YA (Palimpsest) books. Unimaginable creatures, creations, and geography are also prominent in these award-winning books.

In addition to writing fiction, including YA and poetry, she also blogs, tweets, and AMA. Beyond literary pursuits, she also sails, cooks, knits, and plays RPGs.

A recent addition to her freely available collection, "*Fade to White*," a free novelette available at clarkesworldmagazine.com . Cat actually has many short stories and poems. This is available from one convenient location - <http://www.catherynnemvalente.com>

As of this writing, Cat is enjoying Australia and taking a break from writing to give her

CONSUIE

The Consuite is the companion to the Bar. In honor of Author GoH Janny Wurtz, we call it *Consuite*.

Minicon makes feeding you a priority. Where is the food? It's in Consuite. Room 2000, next to the bar. While it's not 3 square meals a day, there is a constant supply of snacks (pop), chips, chocolate, candy, even veggies. "Protein Events" happen at random times. Boiled eggs are always available.

We are open at noon on Friday and we don't close until late Sunday night. Additionally, on Thursday, we'll open at 8 PM (assuming setup work is done enough) and we'll close much later Thursday PM.

Are you one of those great people who like to help out at a party? Volunteer! We need jobs, or a capable member could run the show for an hour or two. We'd be ever so grateful for your being involved. Just talk to Hershey, Stacey or Ann in Consuite.

We are bringing a Nintendo Wii for Smash Bros. as well as an X-Box 360 with a controller (our resident Smash Bros. Master) will be on hand to help people have fun, as well as prizes!

Policies for our area:

- 1) We are a family friendly convention - no 18+ games (example - Cards Against Humanity). For these games we respect your fun, but you should play them in the privacy of your own home.
- 2) Please respect the board games donated into the library. The owners and collectors of these games see the light of day again, and sharing them. We just need to make sure they are in good components, and keep them in the general gaming area.
- 3) Have fun! We have found that there are a lot of people who have great ideas for games from you and more importantly GAME with you. Feel free to ask for assistance in running a game you want to run a game that you brought as well. You are the reason we are here, so even just TALK about gaming.

When I think of Ericka, "strength" and "joy" are the words that come to me. She was there on tasks without hesitation or complaint. There was no ego involved, or pride. She went and was supporting and drew you into her radiance.

Late in 1994 my husband, Lee Pelton, was terminally ill. I had used every bit of energy to fend off the inevitable. Ericka knew that there were necessary things that had to be done, arrangements, and propped me up when I was slumping into a heap. I was inspired by her happy in the face of the most difficult tasks. She was a natural healer in the way that so many are the natural talent.

While I've lived overseas, my contact with friends in the U.S. has been limited to email. Ericka's life had become increasingly difficult and her health was fragile. When word reached around much longer I was saddened that her light would leave this world. She was a bright person I will always remember.

—Giovanna Fregni

Ericka acquired things, all her life. Getting rid of things was hard. Once long ago when I had a discard pile were a big handful of ribbons and a red nylon jewelry roll. I took both home. It was a sort of thing, unembellished and cheap. And it lived in my top dresser drawer with my other things. One day I acquired both travel and jewelry, and there it was, waiting for me. I still use it nearly every day. I think of Ericka when I do. Thanks, Ericka.

I took that handful of ribbons and affixed them to a hanger and kept it in my closet. Over the years I did small projects or whatever one uses ribbon for. It became light pull-cords many times. I used it to turn on or off one of the lights. Thanks, Ericka.

I spent a little time being pissed off at her about her health, a long long long time ago. She had breathing problems and asthma, and all that, why in the hell did she have pets?? Not that I had the right to care about anyone. But eventually I got a handle on it. The pets didn't make her breathing problems any more complicated lesson for me in many ways, and for a long time. Thanks, Ericka.

Two Minicons later (Minicon 7) Blue co-chaired with Louie Spooner. Larry Niven and Fuzzy Hevelin was Fan Goh. A full schedule of basic convention items were held, including dealer/hucksters, AND a banquet. Aussiecon 1 hosted a bidding film, and there was a Star Trek s were promoted often and in several locations. The program book is full of slightly snide bu reviewing (on the Minn-Stf web site.)

Blue was a mainstay of the Minn-Stf music; he played, sang, and composed and was part of the s He was also a gamesmaster. He created the dungeon called "Castle Keep," which was related to system following his own impressions and joy. His dungeon runs become very popular in Minn Grasstek wrote a set of standard rules that he ran in Minneapa and took to Worldcon in DC that v out that D&D existed. In 1974 there were nine Minneapolis dungeon campaigns traced to Blue Pe

Blue worked for the City of St. Paul for many years, working as a zookeeper, a parks attendant, and a snowplow driver. He purchased a house in the fannish ghetto in South Minneapolis in Phillips neighborhood. However, due to issues with neighbors (crime, trash, harassment) he gave it up and moved upstate to Bruno. He married Grace Meyer (who considered him her best friend); they took Ground Hog Day from February 1981 as their anniversary. He had two stepchildren who miss him deeply, Sascha Meyer-Ruud and Jessie Meyer-Ruud, and two step-grandchildren, Evan and Bennett.

After his retirement from the City of St. Paul in 2000, Blue returned to college at UW-Superior in 2001, graduating with a B.S. degree in 2010, with a major in political science and minor in history. (He was hoping to attain the necessary language and other credits in order to also get a B.A.) He also did a great deal of genealogy research, and loved helping people find pertinent information about their family histories. Also he enjoyed thrift-store shopping (always looking for more books), mowing grass at their home in Bruno to create a park-like setting, and dining in restaurants (especially Asian).

Blue reappeared in fannish circles outside the Twin Cities. I met him as far south as Madison, and I expect he made it to Winnipeg as well. I hadn't realized how I had missed him until I saw him again. He was a rock, one of my anchors in fandom, and many other fans' as well.

—Joyce Scrivner with help from Sascha Meyer Ruud

When I first met him in the late 1970s, Blue wore dark glasses most of the time and took on a rather gruff persona. Behind that was a kind and gentle man, very intelligent, with a dry sense of humor. He worked as a zookeeper at the Como Zoo then, and he i

games, and rare intervals, actual business. Meeting locations are published in the Einblatt, available at mnstf.org/einblatt. You can also sign up for our events at mnstf.org. Nearly annually, we hold two very special "meetings": the picnic and the

The pool party is held in the winter, usually at the DoubleTree; check the Einblatt for the March. The general idea is to show up, eat, and talk - like a con that lasts for anything.

The summer Mnstf picnic is generally held in July at Minnehaha Park, Picnic Area. The picnic will begin around 12:00 pm, and continue until 8:00 pm. Snacks and drinks will be provided. There will be a grill going throughout the day, but we ask that you bring your own. At Mnstf meetings games will be played, watched, or avoided, as you prefer. Be prepared to see outdoor games such as croquet, bocce ball and frisbee. (We are right here if you have a pair of horseshoes and like to play, bring them). Dogs and children are welcome to the former. The link shows a map of the Minnehaha Park and surrounding streets between Nawadaha Blvd and Godfrey Pkwy.

http://www.minneapolisparcs.org/documents/permits/park_maps/Minnehaha_Park

How, you may ask, does one become a member of MnStF? Easy: If you come to a meeting and your name down in the sign-in book, you are a member for life. If you sign in to become a voting member for that year and can help choose the Minn-Stf board.

Silly FOOTNOTES

You may have noticed silly footnotes. See, some of us had this idea; every time an Airships* appeared, we would attach a silly footnote. You may have noticed this, but we kind of failed to tell people to use the phrase when they wrote stuff for the program. Airships** pretty much never appears herein. Yet, we had laid in this stock of silly footnotes anyway, largely at random; it was probably a bad idea***.

While we are on the subject of our failures, certainly you have noticed the general program book. Things went wrong. Then more things went wrong. Then I had a hard drive crash and had to redo the entire program book from scratch, in one very long day. I'm very tired.
