Philcon '88 Weapons Policy

No weapons will be permitted, even as part of a costume.

A "weapon" is a gun, gun replica, a sword, knife, raygun, or anything that a member of the public would perceive as a weapon. All lasers and models of lasers are also banned, even if they are not operational. Philcon members agree to accept the decision of the Committee as to what is a weapon. Members who do not comply with an instruction not to wear or carry a weapon, or any object that the Committee decides would be perceived as a weapon or laser, will have their membership revoked without refund and will be expelled from the premises of the Hotel.

The only exception is that registered participants in the Masquerade may wear a weapon as part of their costume during the period beginning one-half hour before the Masquerade and ending one-half hour after the Masquerade. No guns or operational lasers are permitted at all. Any other weapon must be affixed in some manner to the costume. This same rule applies to participants in the Costumer's Workshop.

The Adam's Mark Asks it's Guests to Please...

- Be patient and avoid crowding the elevators.
- Dress appropriately for the restaurants. Costumes are acceptable only in the Coffee Shop. Shoes and shirts are required in all the restaurants.
- Don't post notices on walls or furniture. Tape damages these surfaces. There will be bulletin boards in the lobby for this purpose.
- Put out the do not disturb sign if you don't want to be awakened before 10 a.m.
- Remember that the 16th and 17th floors are strictly no smoking.
- Don't burn candles in your room. As well as being a fire hazard and possibly setting off smoke detectors, the wax damages the rugs and furniture.
- Help make the maids job easier by taking care of your room. And remember to show your appreciation by leaving a tip.

Philcon wants you!

You can help staff the convention by volunteering at the personnel table next to the information desk. We can use everyone for as many or as few hours as you wish. Get a behind-the-scenes look at running a convention. Rub shoulders with the pros. There is no better way to get involved in fandom.

Masquerade

The Philcon Masquerade grows in size, popularity, and especially talent each year. This year's event promises to be better than ever.

The Masquerade will start on Saturday at 9pm. Contestants will be registered and judged according to the Costumer's Guild "Division System," in the Young Fan, Novice, Journeyman, Craftsman, Master, and Recreation divisions. Prize certificates will be awarded. Full rules and division explanations will be available at the Masquerade registration desk Friday evening and until 5pm Saturday.

We encourage all costumers, (first-timers and vets) and anyone interested in participating

in or helping with the Masquerade to stop by the Masquerade registration desk or seek out:

Rob Himmelsbach—Tall gawk appearing to be having a nervous breakdown.

Pam Osborn—Wonderful Chief of Staff recovering from recent fracture—and still ticking!!

Beth Paczolt-Weiner—Short blonde looking perpetually pale until post-masque bacchanals.

Please join us as an entrant, "gopher" or spectator and share in the fun of the Philcon Masquerade!!!

Friday

6:00 - **Four-Sided Triangle (V)**: Two scientists, the woman they love, and a clone machine ... put them together and watch the fun begin.

7:30 - **Thief of Bagdad (V)**: Yes, this is the good one, with Sabu, in color.

9:15 - **Rawhead Rex (V)**: Gothic horror tale written by horror fiction master Clive Barker. You've got to see this one to believe it!

10:45 - **Chimes of Big Ben (V)**: Here's another version of the **Prisoner** series' second episode, totally rescored and with the original credits. Not that much different from the tv version, but well worth seeing.

11:30 - **Nash The Slash (V)**: Yes, he's back: the only New Waver to play the electric mandolin in mummy wrappings. Lots of cover tunes and original material. (Following Nash, we'll be ending the evening with a selection of other New Wave music, some never before seen on video.)

Saturday

10:30 - **8th Man (V)**: Yes, it's three episodes of the amazing Tobor, in one of the earliest Japanese animated productions to be shown in America.

12:00 - **Doctor Who (V)**: After the fantastic popularity of "**The Wrath of Eukor**", filmmaker Ryan Johnson's first tribute to his favorite Doctor, shown at Philcon '86, we managed to obtain Ryan's complete original Doctor Who library and you can see it here! Plus ... his hilarious "**Star Trek: The Pepsi Generation**"!

2:30 - **The Devil's Rain (F)**: And who better to follow a **Star Trek** episode than ... William Shatner, falling under the satanic grip of ... Ernest Borgnine? Don't miss this one!

4:00 - **The Shining (F)**: Stanley Kubrick's masterful rendition of at least part of Stephen King's horror classic. You'll be riveted by Jack Nicholson's demented performance.

6:00 - **Vamp (F)**: See Grace Jones seduce the pants off Robert Rusler, and then drain him dry, while his pal, Chris Makepeace, tries to figure out how to save him. Bloodsuckers galore in this one!

7:30 - **The Witches Of Eastwick (F)**: Jack Nicholson, Cher, Susan Sarandon, Michelle Pfeiffer and Veronica Cartwright ... need we say more?

9:30 - **????? (V)**: This is PhilCon Mystery Movie #1. All we can tell you about it is that it's a science-fiction musical comedy starring Jeff Goldblum, Geena Davis, Jim Carrey and Julie Brown, and you definitely have not seen it already. Come and be pleasantly surprised.

11:00 - **Quest For Love (V)**: Joan Collins plays the wife of a guy who's accidentally stumbled into the parallel universe where she lives ... and if that sounds confusing, wait till you see the rest of the picture.

12:30 - **Robofox (V)**: Yes, it's our annual **adults-only** feature, starring Randy West and Shanna McCullough. You can probably figure out the plot from the title, so I guess there's no need to be *explicit*...

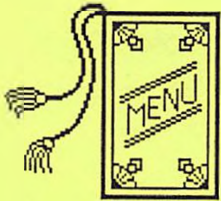

Sunday

11:00 - **Innerspace (F)**: Martin Short is possessed ... by a tiny life pod containing Dennis Quaid, and along with ace reporter Meg Ryan, they search for the missing microchip. One of the funniest SF movies in years!

1:00 - **Videodrome (F)**: David Cronenberg's look at the future of media ... and it looks back at him. Scary!

2:30 - **Vamp (F)**: For those of you who missed Grace Jones the first time around; a great way to end your con experience!

(Key: V = videotape presentation; F = film feature)
