

WESTERCON REGRESSION REPORT # 2

This is a one-shot that insists on coming out regularly, it is dedicated to the theory that misinformation is the best information. Any fan may receive this free, by getting in touch with either the publisher, W.W. Weber, or the editor, O.W. Pfeifer. 4736 40th N.E. Seattle 5, Wash.

The big brains behind the planning of the 1959 WesterCon have made a momentous decision. They have incorporated, this move was made to protect themselves from any losses that might be incurred during the WesterCon. Losses being covered are:

1. Any loss from that results from discovery of the well hidden stills.
2. Any loss that results from the breaking up of the narcotic sales.
3. Losses that result from too many fans picking the right horses.
4. Losses from the fan auction, after all, who would buy a fan.

These are just a few of the losses that they have taken in consideration, actually everything will be taken in account.

The club will now be known as The Seattle Science Fiction Club, Inc. They missed a good bet by not calling it The Washington Science Fiction Society. After all, two messfessmesses are better than none. Ah well, this bunch is a big enough mess in itself.

Back to t'e plans. Things are progressing smoothly. The site is now the Vance-Stewart^a Washinton- Ben Franklin Hotel. You pays your money and you gets your choice.

The first batch of moonshine was prepared and sampled at the last meeting. The unanimous report was... WOW!!! The second batch is in preparation now, we hope to save some for the convention.

Getting back to the corporation. The officers elected were, Geneva Wyman (The Wymans form the majority of the club as it now stands.), Wally Gonsler (A fan), Jerry Frahm (who attends cons but has yet to see one), Rose Stark (Who reads Astounding) and Wally Weber (the only truFan among them.). There is no truth to the rumor that Flora Jones will start up an opposing corporation.

Starting in the next ish, we will describe the interesting sights that can be found in Seattle. So make ypur plans for the trip of a life-time. After attending this Con, you may never be able to afford to attend another one.

It is with regret that NBC-TV will not be in attendance as was previously announced, seems that they have to cover a more important event, the blooming of a century plant or some such thing. We are now in negotiations with CBS-TV, but at the present time, they appear quite cold to our proposition.

There was a suggestion that we open up the WesterCon with a big parade, President Eisenhower will lead it of course. I believe that either Harry Truman or Adlai Stevenson will give the keynote address. In any case, this is something that you won't want to miss, so send your \$500.00 membership fee in now.

That is about it for now. Get on the mailing list and receive all the interesting developments as they occur.---- Blotto Otto.
