

Midatlanticon

You've probably heard of New York...largest city in America, center of the publishing industry, and all that. But unless you've been in fandom for decades, you've never had the opportunity to attend a Worldcon there...which is a shame, especially considering that the World Science Fiction Convention was *born* in New York, just fifty years ago. A number of us, not just from New York but from a long way around it, think it's time to change all that.

Yes, there have been some unsuccessful New York bids, but that just means we know we have to make this one different.

MidAtlanticon. We'll show you.
