

Dear Panelist,

First, I would like to thank you for helping to make programming successful.

If you have any questions, comments, problems or concerns about your schedule, panels, co-panelists or any other facet of programming, please stop by and let us know in Programming Ops, in the east tower, on the blue level in Skyway room 265.

Last minute needs like laptops, easels, pens or other such items are available but again please let us know in programming ops.

Because we are a union city we will not be moving projectors from room to room, though as mentioned above we do have laptops to hook up to our projectors as necessary. If your panel requires projection it should be in one of the rooms we have set up for projection presentations. You will just need to let us know if you will require the use of a laptop. Your presentation should be ready to play if you are using our laptops. You may of course bring your own laptop and plug in to our system. If your panel needs projection and you are not in one of these rooms please let us know. We will make every effort to accommodate your needs but we may have to cancel the panel.

Our panels are schedule for 90 minutes and we expect them to last 70 minutes allowing you time to get from panel to panel. Please make sure you have cleared the room in time for the next panel to start on time.

This year our green room will be combined with our staff lounge and there is overflow seating available as well. This decision was caused by a limitation placed on us by the hotel. We are sorry if this causes you any inconvenience but we hope that you will still make use of the green room to meet before panels with your fellow panelists as well as to grab a quick drink or bite between panels.

On behalf of the programming team and all of Chicon 7, I would like to thank you again for your participation.

Yours sincerely,
Bobbie DuFault and the Programming team
Chicon, the 70th Worldcon

 Itinerary for **Alan Stewart**

Panel Start	Panel End	Panel Title
Panel Location		Panel Description

Moderator in Bold

Thu Aug 30 1:30:pm	Thu Aug 30 3:00:pm	Whom Should We Honor Next?
Addams		In the history of Worldcons, many deserving fans and pros have been honored as Guests of Honor. But there are many others who are also deserving and who have not yet been given that lifetime/career honor. This panel will attempt to come up with some ideas on what qualifications, honors/awards received, longevity in the genre, etc. that should be taken into account when deciding whom to honor next. The panelists will also offer suggestions on deserving fans and pros who have not yet been so honored.
Alan Stewart Andrew Porter Peggy Rae Sapienza Rich Lynch		

Fri Aug 31 3:00:pm	Fri Aug 31 4:30:pm	The Rebirth of Fancyclopedia
Haymarket		The Fancyclopedia was first created in Jack Speer in 1944 and updated in the late 1950s by Dick Eney. Now a group of editors (you could be one) have banded together to create an online wiki called Fancyclopedia 3, which already has more than 6,000 pages. Learn about fannish history and how (and why) to get involved.
Alan Stewart Mark Olson Randy Smith Steven H Silver		

Sat Sep 1 10:30:am	Sat Sep 1 12:00:pm	Where Are the New Fan Historians?
Grand Suite 2AB		The early years of fandom are covered in detail by Jack Speer, Sam Moskowitz, Harry Warner, Jr., Damon Knight, Frederik Pohl, and others. Where are today's fan historians and their histories of the modern era of fandom?
Alan Stewart Christopher J Garcia Guy Lillian Rich Lynch Steven H Silver		

Sat Sep 1 3:00:pm	Sat Sep 1 4:30:pm	Revive Fandom's Relevance to the 21 Century
----------------------	----------------------	---

Wright

Some people believe that we are no longer relevant as Science Fiction Fans. Some people think that all Fandom offers to the 21st Century are wizards, elves, superheroes and vampires and that we have become even more introspective and are now accomplishing our demise by internal fragmentation. Do we need to be more Skiffy? Should we limit our fannish focus to just SF? Come join us for this discussion and perhaps help create a new manifesto for fandom.
