# Detroit

**under three flags . . .**

This city was founded 255 years ago. Old in years perhaps but youthful in its progressiveness!

The history of Detroit is an interesting and unusual one for it has strangely enough lived under the flags of France, Britain and America. It was in 1701 that this city was founded by Antoine de la Mothe Cadillac. Then in 1760 France yielded possession to the British. Detroit remained under British rule until July 11, 1796 when Anthony Wayne's men took over the fort at Detroit from the British and raised the Stars and Stripes for the first time.

What changes have occurred since those early days! From a tiny settlement nestled on the banks of the great Detroit River, Detroit has become one of the world's leading cities, both in point of size and in fame for its many manufactured products which are in common use throughout the world.

Detroit's growth in recent years has been phenomenal. It has taken the rapid strides of a giant in the development of modern manufacturing plants, civic and cultural facilities and we hope during your stay here that you will see and feel its great strength, its dynamic spirit and unleashed vigor!
