The Program Book lists 404 members. The final report shows that the dollar amount of sold memberships was \$1,056. This translate to 528 members of which 371 attended. These figures tend to support the fact that 124 fans bought their membership at the Con. One of our good friends who went to school in Detroit was having such a good time visiting friends that he did not attend, for years later he maintained that he spent the weekend in the jug!

There is no listing of monies collected from the auctions The following dispersal of funds would seem to indicate that \$377.00 was realized from the
