

Site selection lead time goes to two years

By a nearly 2-to-1 margin, the lead time for Worldcon site selection will be reduced from three years to two years beginning in 2006.

Under the changes, there will be no Worldcon site selection at the 2005 Worldcon at Interaction. (However there will be a vote for the 2007 NASFiC at Interaction if Nippon wins the 2007 Worldcon this weekend.) The next site selection will take place at L.A.con IV in 2006 for the 2008 Worldcon.

Members of Interaction will be allowed to vote in the 2008 Worldcon site selection even if they are not members of L.A.con IV.

The final vote for the change was 112 in favor and 59 against.

The change from two-year to three-year lead time was passed in 1985, and the first three-year lead-vote was done in 1986.

Supporters of the change included several Worldcon chairs who said it was difficult to keep committees and volunteers together for three years and that the extra year created more problems than benefits. Opposers felt that the additional year is sometimes necessary for planning

and organizational purposes.

Other business items passed along from Tocon 3 for final consideration were adopted without objection and also take effect at the end of Noreason 4. New constitutional items were all passed on first vote and will be passed along to Interaction next year for second consideration and adoption. (See *Issue 5a for the complete list of the amendments.*)

Ben Yalow, Kevin Standlee and Tim Illingworth were all re-elected by acclamation to three-year terms on the Mark Protection Committee. The Committee will meet right after the end of Sunday's WSFS Business Meeting.

People interested in serving on the Hugo Eligibility Rest Of the World (HEROW) Committee or the Nitpicking and Flyspecking Committee should see WSFS Business Meeting Chair Donald E. Eastlake III before tomorrow's Business Meeting (10 am in Hynes 210).

The meeting was adjourned in memory of George Flynn (Secretary In Memoriam), who passed away last Sunday.

This all-day breakfast & books is a geek haven. The food is delicious, the coffee is strong and the wireless is free. I could move in and start reading. (Beats the heck out of Bon Marché.)

This is a nice, small Mediterranean café with great traditional foods. The pita is warm and the baba ghanouj is garlicky. What else do you need?

Boston Beer Works

112 Canal Street, very near North Station on the Green Line. Reviewed by Rebecca A. Smith.

Being there for an early dinner around 5 pm, it wasn't crowded and service was prompt. They have a large selection of beers brewed on-site and even a cider involving unusual flavors like pumpkin and watermelon. We hadn't exactly come for the food, but were pleasantly surprised to find the hamburgers ample and tasty (if a little dry - ask for extra mayo), the fries plentiful and tasty (they have a variety of ways to spice them) and the pizza is pretty good too.

The skywalk to the Marriott will close at 1:45 a.m. instead of the previously announced 2 am.

The Libertarian Futurist Society announced the winners of this year's Prometheus Awards. F. Paul Wilson won the Best Novel Award for his novel, *Sims*. The Prometheus Hall of Fame Award went to Vernor Vinge for his short story, "The Ungoverned."

Vernor Vinge has won the Prometheus Best Novel Award twice before, but this is his first Hall of Fame Award. He was not able to attend, and long-time fan and friend David Friedman accepted the award in his behalf.

The Prometheus Awards for honor outstanding science fiction and fantasy that that explores the possibility of a free future, champions human rights (including personal and economic liberty), dramatizes the perennial conflict between individuals and coercive governments, or critiques the tragic consequences of abuse of power—especially by the state.

The Prometheus Best Novel Award was established in 1979. Presented annually at the World Science Fiction Convention since 1982, the Prometheus Award includes a gold coin and a plaque for the winner.

The Hall of Fame Award was established in 1983 and focuses on older, classic fiction, including novels, novellas, short stories, poems, and plays.
