Dear Secret Masters of Noreascon:

I enclose payment for one ticket to the banquet. However, I'm not sure just what I'm buying. I read in Locus that the swordfish was out but there might be other fish, but I haven't seen any further details. Now I would just as soon have swordfish, mercury or not, and would in any event prefer fish. What wasn't reported, though, is whether the original price structure still holds. Therefore: (a) I want fish; (b) just to be on the safe side, I enclose \$9.30 — if the lower rate still applies, you can give the difference to TAFF. (Is it conceivable that I'm the only one thus confused?)

I noticed the enclosed ad (in yesterday's Providence Journal) offering hotel rates that seem to be appreciably lower than ours. What's the catch? (I'm not interested in these particular terms myself, but it looks as if some fans could save money that way.) I haven't sent in my reservation yet, mainly because I haven't decided when to arrive: do you have any idea yet how much will be going on on Thursday?

Confusedly yours,
George Flynn

Dear George,

enclosed is your banquet ticket. Fish is what you'll get; in fact, you're getting scrod. Price is \$7.50 so as per your request we'll include the extra money in the amount we ~~pa~~ donate to TAFF.

*8/6 = got a \$1.80 refund check
(dated 7/26)*

That hotel deal is a special thing to try to fill up empty rooms over weekends and is a saving over the regular rates. However it is comparable with our rates. [sneaky thing: parking is free for all hotel guests] swimming is also available to all guests] Total for the two brunches mentioned is: 6.70 or so. Remember to double that price since it's for one person in a double and you have to fill up that double. No real savings.

Thursday night Chris Steinbrunner will be showing a film (4 hrs) on the history of the sf film but we'll also show it later in the con.

Anything else?

Best,
