An AFPA Publication, 19 Somerset Place , Melbourne Cl

A REPORT ON THE SF MAGAZINES

The new series of New orlds has arrived. Format is p.b. which I think is a very good move though the cover illustration is little better than the old New Worlds recent issues. No doubt the appearance will improve as its popularity increases. It is no doubt aimed at the paper back market. Lead story Equinox by J.G. Ballard is featured plus stories by Aldiss, Brunner and Bayley, plus an article on contempory author William Burroughs. The numbering sequence has been retained and it will be coming out Bi-Monthly for the time being. We hope the new editor Michael Moorcock is successful in his new venture.

In a recent survey in SF Times it was reported that Analog had the highest circulation of the magazines last year, next came Galaxy, third If, fourth F&SF, fifth Amazing, sixth Vorlds of Tomorrow, seventh Fantastic and eighth was the new quarterly Gamma. The third issue of which I believe is now out. This recieved very poor distribution in the US and here also All I could get from Gordon and Gotch was 3 copies of number one and none of number two. They had so few copies many of the Newsagents missed out completely. Of course it did not make any difference to G&G that McGills probably sell more of than 50 other agents put together.

New magazines out or expected if you can call them new include The Best SF from f, The Best SF Stories from Galaxy, The Best SF from Worlds of Tomorrow and If itself is now monthly. Another item of interest the Magazine of Horror has now seen four issues.

The big craze is still the Monster magazines . We even have plastic models of the most famous monsters available here. Magazine titles include Famous Monsters of Filmland edited by F.J. Ackerman . Horror Monsters Castle of Frankenstein, Famous Monsters of Filmland, Screen Thrills Illus., Spaceman -the latter concentrating more of the pure space movies with the others covering all types of sf and horror movies . It is most unlike. ly that any of these will be available in Australia as our lilly livered censorship department objects to them . A paperback is coming from Paper -back Library with Selections from the Ackerman item called the Best From Famous Monsters of Filmland . We may be able to get a few copies through.

Jould any body be interested in obtaining a copy of James V. Taurasis amateur SF magazine The Original SF Stories . I am considering ordering a quantity of same. Price here would be about 6/-

T HE MELBOURN SF CLUB

Due to most of our members being devoted film fans many were absent recently at the Melbourne Film Festival .I hope that attendances will improve now that it is over. On July 3rd the Film Group is screening The Day the Earth Stood Still and on July 31st one of three films which have been booked from the National Film Library, Vampyr, Thief of Bhagdad or the Lost World. Last show we saw MGMs Time Machine for which we had a very good attendance. Now that we have our new bookshelves completed in the Club we intend to obtain as many magazines as we can and we need plenty, so if you have any to sell or even give away we may be interested.

NEW PAPERBACKS

complete list of all the new American items will be found on the otherside of this page .Future titles from PENGUIN include Death world-Harrison(just out), The Hugo Winners -Asimov, The Man in the High Castle-the Hugo Winner for last year -Dick, Connoisseurs SF ed Ton Boardman, Journey to the Centre of the Earth -Verne, Yet More Penguin SF -Aldiss, The Fifth Planet -Fred and Geoffrey Hoyle, The Drowned World -Ballard The Four Dimensional Nightmare -Ballard .Cats Cradle -Vonnegut and Who? -Budrys.

See McGills list for all recent other British books & pbs.
