SHANGRI-LUNA 'FEARS

This advertisement contributed and sponsored by the Lunar Mining and Engineering Corporation, Local #214, in a Publicity Campaign designed to "BRING BOB TUCKER TO SHANGRI-LUNA !!" The Mutant Maiden on the reverse side is known as a VOMOOON MAID. We want Bob Tucker---on the moon! Why doesn't Bob Tucker go to the moon?? Pong would be so much more useful on the moon(GHU! we need help bad in these dam Moon Mines, don't we?) We can't get along without Bob Tucker. Luna just isn't---well, "luny" :

All Moon Maids look like the VOMOOON MAID on the other side. This ad dedicated to all the little Shangri-Lunatics. A LUNAC(IT)Y Publication. *A Planet Fantasy Presentation of Cosmian Enterprises* 214 N.20th Newcastle, Indiana. March 15, 1944 . *** **

Compliments:

To those who are not members of the FAPA ; we suppose you might possibly like to know what all this little affair's about. Well---it's a "take-off"(you know--strip-tease!) on a little litho "ad" distributed in FAPA, "designed to bring Bob Tucker to Shangri-la"(LOS ANGELES), and sporting a sporting little lady(well, she was thumbing her nose, and I'm not all sure she was a lady!) in nothing but her bobby pins(only--come to think of it, she didn't have any bobby pins; oh well--she was wearing her most charming Birthday Suit!) ** This beautiful litho was did in LA at Reeds(plug), and is to be used as a cover for one of the forthcoming Cosmian Publications out soon. This preliminary use of it in the FAPA will not materially detract from it's value as the cover of this forthcoming magazine; and we couldn't resist this little joke, after we saw the "Shangri-la" version. It's in fun, and hope somebody enjoys it. WATCH for the real mag that will feature it for a cover, when it will be advertised, before long! You won't want to miss that! Crozetti draws many of the best "VOM IDENS" in "VOM"and we think this Cover she did for us, is one of her best works. This one would have been in VOM, only we practically took it away from ACKIE . (Seriously, Lora drew two of them, and Ackerman finally settled for the other one, after we begged for this one when we were in LA.) * The "other" one is on the back cover of VOM #28, and hang for a long time on the wall of the Los Angeles Science Fantasy Society. It's used as sort of a "plug" for a new fanmag Crozetti's working on. I understand she really needs some stories, articles and would appreciate very much if you'd send them to her:1542 W. 11th street, Los Angeles 15, Cal. Name of the mag is VENUS, and contains stories and material about that planet, I was told; though I understand that she wants anykind of material, also. **VOM is from Forrie Ackerman, Box 6475 Metro Station, Los Angeles.
