IT'S THEATER PARTY AGAIN -- SOMETIME

I have here a letter from the Lamplighters, and rather than titillate your curiosity, I'll share it with you. Share and tell, as they say in grammar school... Hmm, I must be feeling cynical tonight.

Dear Mrs. Rolfe:

We are sorry to hear of Ed Meskys' departure* but are very happy that you are taking over where he left off.* Our performances are on Friday and Saturday evenings. "Pirates of Penzance" opens February 26th and will close April 30th. The "Sorcerer" will open May 21st and will close July 9th. The "Mikado" will open August 6th and will close November 5th. "Hansel and Gretel" will open November 19th and will close December 11th.

Please let us know how many will be in your theater party and what show you desire to see and we will be happy to send you the desired tickets.

We look forward to seeing you in the future.

Sincerely yours, &c....

Well, there you are, folks. Do what the man says: let me know what show you desire to see and how many will come. Also, nominations are now open for a date for the Penzance party. It must be after the N'APA deadline (assuming NIEKAS makes the deadline), and before April 30th. Even if you aren't coming, suggestions from you will be welcome, because I haven't the foggiest what day to pick.

There; any of you who would like to chuck drawings for a living, be sure and call Mr. Ferrari. Live in the uncongested Bay Area. Personally, I think it's the paper trying to see if anyone reads their want ads.

And while waiting for Mr. Ferrari to answer, stay wicked.

*I'll bet they are!
