incentive plan -- profit-sharing on new concepts, including black&white comics.

several jobs as a result. Green Lantern/Green Arrow 87 will be all reprint as a result.

Gil Kane will do an origin issue of Ka-Zar and then John Buscema will take over.

There apparently will be at least 4 Blackmark books by Gil Kane from Bantam, with the first one due to be reissued with a new cover.

Marvel was negotiating for the Burroughs characters that will be done by DC -- but they are not completely out of that field yet (too bad for those who hate Mysterious Hints).

Marvel will gladly sell you Savage Tales #1 for 60¢ a copy in cash or checks, but only a couple to a customer. Material for the second issue will appear in color comics -- the latest Ka-Zar had one, Conan will have another eventually.

Credit Where Due: Strange Adventures 228 reprinted a 1955 Bill Finger story "The Last Television Broadcast on Earth." To the very best of our knowledge, this is the only sf story anywhere to predict live TV coverage of the first moon landing. Finger put the year of the landing as 1983, but that is a very minor quibble. SF historians, take note.

REVIEWS AND MEDIA MENTIONS: The Sept Playboy, now off-sale but available from the publisher as a back issue at \$1, contained an interview with Jules Feiffer, an article on collecting things for profit (including comic books) and a board game, "Feds 'n' Heads" by Gilbert Shelton. * The October Cavalier contains, besides Vaughn Bodé's "Deadbone Erotica," a brief article on Elzie Segar's "Thimble Theatre" by Martin Williams, who swears that the use of strip reprints ghosted by Doc Winner instead of Segar strips was Cavalier's fault. * The current Esquire (a slick-paper National Enquirer) has a bad strip inspired by the "radical chic" issue of Hulk and drawn by Herb Trimpe. It is a remarkably unfunny satire with Gloria Steinem as a super-heroine. * Rolling Stone for Sept 16 has a very fine article on Marvel by Robin Green, one of the company's ex-receptionists. Lots of inside stuff including an account of Steranko's life of crime and in-depth interviews with Marie Severin, Stan Lee and Herb Trimpe and a very superficial one with Roy Thomas, who has far more depth than this article would indicate. * Incidentally, Marie Severin speaks eloquently of the change in fans from admirers to bitches (hardly critics). This is sadly exemplified in a fanzine called Comic Fandom Monthly, which consists primarily of uninformed negativism about comic pros. I couldn't read much of it but one example is the complaint that supporting members of the Academy of Comic Book Artists are not getting their \$5 worth. Well, now, if you got \$5 value for \$5, you'd hardly be "supporting" anything, would you? (CFM is 50¢ from Joe Brancatelli, 2016 E. 23 St, Brooklyn NY 11229) * National Lampoon for Oct has a Mad parody which apparently is designed to create a feud with the magazine they shamelessly emulate; if Mad responds, they get a free plug in a publication of far greater circulation -- Mad probably will ignore it. The artwork by Ernie Colon and others (except for the terrible "cover" by John Romita) is excellent; the writing is sporadically funny. * We have had excellent reports on the success of ads in The Buyer's Guide (30¢ a copy 3d class, 50¢ 1st class, 75¢ airmail, RR #1, Box #297, E. Moline IL 61244) and we can attest to its quality and dependability; if there is a better adzine, we have never seen it.

Comix: A History of Comic Books in America by Les Daniels (Outerbridge & Dienstfrey, \$7.95) is out and we have a copy but have not yet read it. We can recommend it on the basis of the several well-chosen comic reprints and the low price (made possible in part by the poor quality of most of the picture reprints and the unfortunately terrible color pages, which should never have been attempted at all). We have skimmed it and not found any errors. We, especially Don, are mentioned several times (and our names are correctly spelled, too, Mike Harrier) -- if you think that might bias us, you are now warned. A full review next month, in our gala antepenultimate issue. * Nostalgia Press is active again and you can get Flash Gordon Into the Water World of Mongo (\$12.95) by Alex Raymond, Mandrake the Magician (\$6) by Lee Falk & Phil Davis and Nostalgia Comics #1 (\$3) a magazine featuring reprints of Austin Briggs' Flash Gordon, Charles Flanders' Secret Agent X-9 and Lyman Young's Tim Tyler's Luck. All the strips in the latter are bad and dull, the Mandrake is mildly entertaining and only the Flash Gordon can be recommended to any but ardent completists. The FG book is the second printed and comes just before the first volume printed and will be the second in sequence when the next (first) book appears. Clear? Well, the books are being published in 3-2-1-4 order due to lack of availability of the earlier strips, but there will be four books containing all the Alex Raymond Flash Gordon strips. Ignore all the introductory articles by Maurice Horn, incidentally. He does not know what he is talking about: "There isn't that large an esthetic distance from Flash Gordon to Bringing Up Father, and one can easily imagine a married Dale growing into Maggie." Not unless Dale is a shanty-Irish immigrant suddenly become rich, one can't. Horn obviously has no understanding of Bringing Up Father and Al Williamson says he doesn't know anything about Flash Gordon either. Order from Nostalgia Press, Box 293, Franklin Square, NY 11010 and tell them we sent you.

A Golden Comics Digest (#19) featuring Little Lulu came out over the summer and was very badly distributed. Look for it, it contains some very old and very new and very funny LL reprints, most if not all by unsung genius John Stanley. * DC Special #15 is a real bargain: For a mere 25¢ you get four Plastic Man stories, including his origin and that of Woozy Winks and a solo story of Woozy. This is the real Plas, not that travesty that DC sprung on us in the late 60's. * Weird War Tales #2 has a Jerry De Fuccio/Reed Crandall story which packs more plot and atmosphere into 8 pages than I would have thought could be done. Too much, maybe, but it is a fine story all the same.

...AND MORE REVIEWS Werewolf by Night (Marvel Spotlight #2) is interesting but doesn't go anywhere; the art, by ex-Eisner assistant Mike Ploog, is very good, but the story is a bit muddled and it is not clear what direction the strip will take (if it ever appears again). * Last page we put down Comic Fandom Monthly #1; we just received #2 and are happy to say that the improvement is marked -- there is a lot less of the "Hey, gang, listen while I put down the pros" writing. There's still some, though, mostly by Stan Clish and by some rather inept reviewers. But if it shows this much improvement between each issue...

Etcetera #8 contains the sad story of why there was no Etc. #7 (printer lost it) and the announcement that its title will combine with the title of The Comic Reader, both under the editorship of Paul Levitz (393 E. 58 St., Brooklyn, NY 11203, 3 for \$1.). This is not worldshaking, it merely means that Mark Hanerfeld has admitted what everyone else has known for more than a year, that TCR is dead. This issue of Etc. is a somewhat disorganized one, but the issue-by-issue DC contents listing is good to have. (Paul takes NF to task for printing news "liberally interspaced with tons of personal opinion." We cheerily admit it; now, Paul, read Etcetera and notice the opinion scattered through the news -- such as lumping the theft of Neal Adams artwork under "Trivia." Since this theft has put chronically-late Neal Adams further behind schedule, caused one GL/GA issue (87) to be entirely reprint, may end Adams' association with Marvel and could very well cause him to be taken off GL/GA, I hardly think it is trivial. Of course, that's opinion.) But we do recommend Etcetera. If only it called itself a news&opinion fanzine...

The Legion of Charlies (Last Gasp) is the best underground comic we've seen since The Fabulous Furry Freak Brothers. Charlies, by Tom Veitch, Greg Irons and Greg Sheridan, combines the similar tales of Charlie Manson and Lt. Kali (a brilliant stroke) with R A Heinlein's Stranger in a Strange Land to create a heavy, disturbing science fiction story (not for the squeamish and adults only). Highly recommended. * San Francisco Comic Book #3 contains some minor R. Crumb work, a very amusing George Metzger and a page by Willy Murphy that is worth the price by itself. (50¢, Print Mint) Recommended. * Up from the Deep (Rip Off Press \$1) contains very good work by Jaxon, Richard Corben, and Greg Irons. It has 16 interior pages in full color, an underground first. * But not the last: Also in color (all in color) are Light (Print Mint, 75¢) with beautiful work by Irons; Color (Printmint \$1) by Victor Moscoso which contains the prettiest obscene pictures I ever have seen (not really obscene, but I had to say that) and Bum Wad (Yahoo, 75¢) which proves that color can't make garbage any better. Other bummers just in are Bent (50¢) which has one-track S. Clay Wilson doing his gory fairy stuff for the umptieth time and Buzzard (Co. & Sons, 50¢) which is pointless and undistinguished. Check your local head shops or the dealers we listed last month. Adults only. Adults only. Adults...

Paragon #3 (\$1, 2125 Jackson Bluff Rd., Apt. F-201 Tallahassee, Fla. 32304) is an art-oriented fanzine from William Black. The artwork is good, the color cover is beautiful and there are fine articles (especially Martin Greim on Dr Fate) but, for us, the high spot is a short but beautiful poem by Bob Cosgrove about Captain Marvel. Try a copy.

AND NOW, BACK TO THE NEWS: Le Journal de Mickey, weekly French comic mag, recently published its 1000th issue; some beautiful work but I can't get used to seeing those fine old Mickey Mouse strip reprints next to tenth-rate MM comic-book work as if they were of equal value. And I do not understand the Gallic fascination with Mandrake... * There now are Marvel Comics character greeting cards, put out by The Third Eye Inc., featuring Dr Strange, Thor, DD, Silver Surfer, Spider-Man -- some with sayings from the strip, some with new ones. * A Big Brother & the Holding Company album features a Batman panel from Detective in which the group is mentioned. * Nostalgic Books or Nostalgia Press (catalog lists them both ways) swears the EC Horror Library will be out this November at \$19.95 (pre-publication price is \$17.50). Also promised this fall are Harvey Kurtzman's History of Comic Art from Argh to Zap (\$14.95, pre-pub \$12.50) and Captain America by Simon & Kirby (\$6.95, pre-pub \$5.95). * Chuck McNaughton, formerly with Warren and Skywald, is editing The Monster Times to be out in mid-October with work by Kaluta, Vrightson, Jones. Write him at 11 W. 17th, 8th floor, NY NY 10011 and say "Hi" for us, we owe him a letter. Chuck buys only 1st publication rights, so we might even write for him. Brill & Waldstein is the publisher, aimed at 9-19-year-olds.

BITS Duke Redbird, an Indian from an Ontario Ojibway reserve, is making something of a splash by writing script and drawing cartoons for a five-minute animated cartoon titled Charlie Squash Goes to Town. The film was made by Canada's National Film Board and will soon be released to theatres and schools across North America. Charlie Squash leaves fishing, hunting, and dancing on the reserve to go to the city; first he adopts pushy white man ways, then moves to Red Power, eventually invests in a store and starts selling war bonnets, finally hires a white man to make the bonnets and run the store--while Charlie returns to the reserve to spend all his time fishing, hunting, and dancing. %% Jim Ivey sends a brochure used for "The Cartoon--Hogarth to Herblock," a display at Loch Haven Art Center in Florida in August; 140 items (cut from 350 for space reasons). SAN DIEGO Art comments by Bjo Trimble: "Jack Kirby lent himself to helping judge COMICON the art show, along with George Barr and Alicia Austin. He is opinionated, but was definitely not in favor of comic art if it was badly drawn, and in fact threw in some surprises in his choice of artists. We enjoyed his company, and especially enjoyed hearing him discuss comic art as if it was a good job, and not some Godhead sort of thing. He gave encouragement to young artists, but was critical of slapping out 'fanzine art' instead of really working at the craft...Kirby is his own Big Business, and the Kirby family makes no bones about it. I'm impressed. Shel Dorf had decorated every open space--windows, glass doors, including the art show room--with huge posters of comic book and strip characters. I was assured by everyone that they'd been done by projector, to capture the style so well, and I assured everyone right back that those posters still represented more work than they knew. The art show judges voted Shel an Hon. Mention, mainly for his efforts in behalf of the con." Fred Patten (CAPA-alpha Central Mailer and on the '72 World StfCon Committee) says, "About 10% of the comics fans I talked to at San Diego said they didn't have a very high opinion of sf cons after the BayCon in 1968; they considered they'd been lured there under false pretenses with promises of lots of comics-oriented program items that weren't delivered. Since we don't want the LACon to be turned into a ComiCon, I didn't try too hard to convince these fans that we'd be different."
