

OF MEMBERS AND 'ZINES (and Egoboo Polls), February 1987, is compiled by Peggy Rae Pavlat of 5709 Goucher Drive, College Park, Maryland 20740.

The intention of the index is to make it easier to vote in the FAPA Egoboo Poll which should be included in this mailing. I recognize that it doesn't help one to vote if the February mailing isn't opened until there's time to read it in May (or August), but at after this many years of doing this index, something may be gained through continuity, even if most people don't use the index to vote (including me many years!)

Some years I also design and include an Egopoo Poll (categories this year might have included most pages spent bemoaning how boring FAPA 'zines are and best warning that football will be discussed.)

Of Members and 'Zines indicates the name of the fanzine, the date of the FAPA mailing and the number of papers of each member's FAPA activity, whether it is published in that member's zine or in another member's. The index tends to ignore franked material. Letters which are printed credited to "Frank" or "Charles" are likewise ignored in frustration unless the author is apparent from the context.

Notations to the right of the mailing date (Feb, May, Aug, Nov) signify that the person post-mailed the material (PM) to the mailing noted or had material in another person's fanzine (let = letter; art = art; article = article).

Credit 1, by Tom Perry, was noted as a post mailing to the May mailing, but I don't have a copy. FAPAMENTARY # 13, Brian Earl Brown, was included in the FA, but I didn't have one in my bundle. Neither is included in this index. (I wonder if others received these zines.)

When the publisher/editor of a fanzine is a member of FAPA and material by another member included within the fanzine is indexed, the editor/publisher is noted in parenthesis immediately after the title of the fanzine. If no activity is noted after a person's name, then no activity was noted in the mailings or postmailings.

Notations of which individuals have held FAPA office during 1986 are also included in the index.
