Members will join with us in congratulating L.J. Johnson, Liverpool member and a Vice-President of the British Interplanetary Society, on attaining the coveted rank of an author. His story, "Seeker of Tomorrow", written in collaboration with E.F. Russell, is specially designed to suit British tastes, and has been accepted by ASTOUNDING STORIES.

This new success brings our number of author-members up to six. They are:-

H.O. Dickenson....."The Sex Serum".
B. Herbert....."Crisis - 1992", etc.
L.J. Johnson....."Seeker of Tomorrow".
F. Fragnell....."Green Man of Kilsona", etc.
E.F. Russell....."Saga of Pelican West", etc.
W.F. Temple....."The Kosso".

To all we extend the hope that they will continue to provide us with many more interesting and enjoyable stories.

We regret to announce the death of the well-known American fantasy writer, H.P. Lovecraft. He was claimed by many to be the best author in the sphere of "pulp" magazines. Although his writings were primarily of a weird nature, his science-fiction works were none the less outstanding, and included "Colour out of Space" and "The Mountains of Madness".

It is understood that a memorial volume is being prepared by a group of American fans.
