Notes: items in (parentheses) are assumptions

- title illos of articles are listed as illos not headings

- when someone puts artwork in his own column, it is listed as an illo even if it is an unrelated fillo

- the number after the type of art (Ex. illo:3) is the number of pieces of art

- Pages indicate the actual pages an item is on (Ex. 4-7 is p.4 thru p.7 inclusive; 4, 7 means that something is on 4 & 7)

- reviewed items are listed in the notes

- Interlineations and very short uncredited fillers are not listed

- Names are listed as printed. (Ex. No attempt has been made to unify A. Vincent Clarke to Vince Clarke, Vinç Clarke or any other variation.

- Titles are listed as printed on the page of the fanzine where they appear not as they might be in the ToC or on the cover. Exception: if a regular Column has a variant title, it is listed under the Column's title if discernible, with the variant in the notes.
