=====

Just to make things easy we have decided to bring an SF convention to you. This will be a one day event at the University of London Union building in Malet St. It will feature as many talks, films, exhibitions and stalls as we can wring from the space the time and the money. So far we have asked Bob Shaw to be guest of honour and we hope to get THE ULTIMATE WARRIOR and FORBIDDEN PLANET as the main films. We still have plenty of program time to fill so could anyone with ideas for program items, or who has something for the art show or fancy dress parade please contact me at the address below.

=====

ILLUMINATUS - This cycle of SF plays by the Ken Campbell road show has been very successful in Liverpool and has been mentioned by one of the London papers as the opening production of a new section of the National Theatre. The NT box office are unable to confirm this. They hope to stage ILLUMINATUS but aren't sure that work on the theatre will be completed in time. Suggested date was late Feb/early March.

B.I.S LECTURE COURSE - The British Interplanetary Society will be setting up an 8 week evening class on topics in Science and Technology. Contact Prof G.V.Groves, Dept of Physics & Astronomy, University College, Gower St, W1. Course fee £6
