ELECTIONS!
See Pages 10 and 11

News—Elections!
The election material is on pages 10 and 11. This is the election issue, so it is mailed to every member.

The candidates are

President—George Phillies

Directorate—Nominated
Judy Carroll
R-Laurraine Tutihasi
David Speakman
Jefferson Swycaffer
John Thiel

Directorate—Write-In
Richard Speakman

Club Activities
Boost the N3F!
Something You Can Do
Do you use Facebook, Twitter, or some other electronic outreach medium? Do you belong to blogs or news groups? When it is appropriate, speak up for the N3F! Be sure you include our web address http://N3F.org/join.

Directorate Acts
The Directorate has approved a Bylaws change. The change creates an Intellectual Property Protection Committee.

Volunteers are needed! I need two volunteers having some understanding of intellectual property protection to place on the committee. Please contact George Phillies phillies@4liberty.net ASAP to volunteer. A Volunteer needs to be a voting member of the N3F.

Eldritch Science Mailings
I am mailing old issues of Eldritch Science to members in the United States. Overseas postage is a bit too stiff for me. Most dues-paying members got all available issues. Public members were sent a few issues.

In This Issue
This issue of the National Fantasy Fan includes News, Club Activities, Letters of Comment, SerCon, Fiction, and Elections.
The National Fantasy Fan (Bonfire), Vol. LXXVI, Number 11 November 2017, ISSN 2169-3595. Published monthly by The National Fantasy Fan Federation.
building regional railroads and then selling their track to form major companies. The game map is divided into 8 regions, which come into play in chronological order. Each player may lay up to three track sticks a turn. Track sticks are picked up when major companies, represented by cards, are formed. This step is important because players only have a limited supply of track sticks. Players may skip regions if they are willing to lose victory points for doing so. The game ends when a player builds railroads in all eight regions or builds his eighth major company. I feel that this game accurately simulates the development of railroads in America by forcing players to build their regional railroads in chronological order, starting with region 1 in the northeast.

Terraforming Mars is still the most popular board game in Southern California. I'm predicting that the craze will only grow stronger when the next expansion kit "Venus Next" is released in early 2018.

Treasurer’s Reports
By David Speakman

Wells Fargo started charging us a monthly fee of $20 a month for the honor of a checking account. Our president, George Phillies, approved a request to move N3F funds to an insured credit union - which will provide free checking. The Directorate assented.

I am now in process of switching over but that got stalled by the U.S. government. I was informed that the U.S. Department of Homeland Security (DHS) now tracks bank accounts of unincorporated associations like N3F - so we needed to apply for a tax ID number from the IRS for any new account applications. So, I applied for a tax number for N3F. As I write this on Nov. 15, 2017, we got the new N3F tax I.D. number in today's trip to the P.O. box. So, I'll try to get the new credit union account opened with funds transferred as soon as possible.

There are some minor banking charges related to this process that I am paying out of pocket and may present to the President and Directorate for approval to deduct from the treasury, as needed.

Account Balances since last report: (earlier report lodged in spam folder and was received after I mailed).

$2772.67 (Nov. 15, 2017)

N’APA
The 231st issue of N’APA, our 58-year-old APA, had 28 pages and five contributors. It was mailed to all contributors last week.

Directorate
The vote was completed on the proposal made by the treasurer that there be established a committee to deal with the protection of NFFF property. The proposal was phrased as follows: I propose that the N3F set up a Standing Committee to oversee N3F intellectual property, including the N 3F.org URL, based upon the WSFS Mark Protection committee.

The treasurer added supplementary material to the proposal. The vote was unanimously in favor of the establishment of this committee.

WSFS is the World Science Fiction Society, I assume. I believe the president was aware of what the Mark Protection committee was. Some explanation of it was given.

- John Thiel, chairman

Fan-Pro Coordinating Bureau
We’re still being successful in obtaining interviews with writers and fans, as the next issue of Ionisphere will show. Hopefully there will be increased interest in this bureau and its activities, as that is where a lot of the activity is happening. Our new Paper/Online Adjutant, John Polselli, is now fully installed and has a bio coming up in the coming issue. – John Thiel, Fan-Pro Bureau head

Franking Bureau
The Franking Bureau circulates free fanzines to all members who have given us their email addresses. If you have given us your email address, you have been receiving issues of zines like MT Void, Revenge, Kommandeur, BCSFA, and more. If you have not given us your email address, you are not receiving these.

Round Robins
Round Robins are discussion lists. They are a way of connecting with people who have similar interests. Traditional round robins are sent through the mail. Each round robin consists of a packet of letters from its members - which is mailed from member to member. As each member gets the packet, they read all the letters, then remove their own previous letter, write a new one, and send the packet on to the next member.

The N3F offers two kinds of Round Robins; traditional - where members send letters in the mail, and electronic - where members send letters by email. Both kinds are fun and informative and a good way to meet other members and to discuss topics of mutual interest.

If you wish to join a Postal Round Robin contact - Patricia Williams-King, 755 Glen View Drive, Nashville, TN 37206

Electronic Round Robins
We need at least 3 members to start an ERR. Following is the list of current ERR and the number of members in each one:

Science Fiction, Fantasy & Horror in TV, Movies and Books
- 3 members; Science Fiction, Fantasy, and Horror Artists - 2 members - ONLY 1 MORE MEMBER NEEDED; Writers and Their Works - Science Fiction, Fantasy and Horror - 1 member; Japanese Anime - 1 member; Fairy Tales and Folklore - 2 members
The following Round Robins have 0 members each.
The Marvel Universe; DC Superheroes and Villains; Cartoons and Cartooning; Science Fiction, Fantasy and Horror Video Games; Comics and Graphic Novels

A Round Robin needs at least 3 members to start rounding. Please help these members by joining one of the above Round Robins. If you see an ERR you would like to join please contact Judy Carroll AutumnSeas8012@yahoo.com

Welcomitee

The purpose of the Welcomitee is to welcome new members to the club. A letter is sent, by email or postal mail, to new members informing them of club activities they may be interested in joining. Those members with email addresses are also sent attachments to the current TNFF and other publications the N3F has to offer. No new members reported this month.

If you would like to help welcoming new members to this wonderful club please contact Judy Carroll AutumnSeas8012@yahoo.com

Writer’s Exchange Bureau

This month we have three quotes on writing to ponder while preparing for the holidays.

A writer never has a vacation, for a writer’s life consists of writing or thinking about writing.

Eugene Ionesco. - Playwright

No tears in the writer,
No tears in the reader.
No surprise for the writer,
No surprise for the reader. Robert Frost. - Poet

On terrible first drafts: Almost all good writing begins with terrible first efforts. You need to start somewhere.

Anne Lamott. - Author

The Writers Exchange is for anyone who has an interest in writing. If you are looking for someone to read your work, or if you would like to read the work of others, contact Judy Carroll. Autumnseas@yahoo.com

Membership Recruitment Bureau

I’d like to emphasize our new policy here: that is, that we will give each member honorable notice who recruits a new member, and a three month addition to his own membership to any member who recruits a new voting member. If you recruit someone, be sure to contact my colleague and tell him you have done so, and you’ll receive credit. We are presently availing ourselves of all possibilities of advertising on the net and elsewhere, and have been bringing in a few members, but we’d like more, and will be glad of any help given us by the membership. -John Thiel

SerCon

N3F Founding Members:
Arthur E. Sehnert
by
Jon D. Swartz, Ph.D.
N3F Historian

Art Sehnert was a science fiction (SF) fan in the 1930s-1940s. He lived in Tennessee.

He was a member of the Tennessee Fictioneers in the 1930s; and later, the Vulcan Publications. The Vulcan Publications included the fanzines Beowulf, Vulcan, Apollo, Mars, Thoth, and Saturnalia. The Fictioneers ceased to exist in a controversy over a fanzine that Sehnert was to edit.

Sehnert tried to form the Dixie American Federation of Science Fictionists before World War II (an attempt to organize SF fandom all over the South), and served on the Advisory Board of the Dixie Fantasy Federation, founded in 1941.

With fellow fans Joe Gilbert and Harry Jenkins, Jr., Sehnert published the fanzine, The Southern Star. The Southern Star was published for five issues, from 1941 until 1945.

In the 1940s, many fans were interested in other members of fandom, and circulated questionnaires to obtain knowledge on topics such as fans’ clubs and reading habits. On the other hand, Sehnert circulated a questionnaire, resulting in 65 replies, that was concerned more with fans’ personal characteristics. Among the results he obtained were that two-fifths of those responding had German ancestry, with most of the rest claiming English descent. One-third of those responding reported that they had highly technical jobs and more than one-fourth said they had skilled jobs, with only one-eighth admitting that they performed manual labor for their livelihoods.

Sehnert’s questionnaire helped create new interest in SF fans, their backgrounds, and their activities.

Of course, like his friends Gilbert and Jenkins, Sehnert was one of the charter members of our club, the National Fantasy Fan Federation (N3F), in 1941.

Neglected Genre Authors
The Genre Fiction of David H. Keller, M.D.
by
Jon D. Swartz, Ph.D.
N3F Historian

David Henry Keller (1880 – 1966), who usually published his fiction as David H. Keller, M.D., also used the pseudonyms of Monk Smith, Matthew Smith, Amy Worth, Henry Cecil, Cecilia Henry, and Jacobus Hubelaire. Keller wrote for the pulp
Keller was born in Philadelphia and graduated from the School of Medicine at the University of Pennsylvania in 1903. He served as a neuro-psychiatrist in the United States Army Medical Corps during World Wars I and II, and was the Assistant Superintendent of the Louisiana State Mental Hospital at Pineville (until Huey Long's reforms removed him from his position in 1928). Keller's medical training and unique experiences during the two World Wars led to his many professional publications, including several monographs for servicemen. His specialty was treating soldiers who were "shell-shocked," the condition now known as post-traumatic stress syndrome (PTSD).

In the late 1920s Keller traveled to New York City to meet with Hugo Gernsback, publisher/editor of Amazing Stories, who had bought Keller's first published SF story, “The Revolt of the Pedestrians.” Gernsback was impressed by Keller's quality of writing and ability to address sophisticated themes beyond commonplace technological predictions or alien encounters typically found in many of the early SF stories. He encouraged Keller's writing and later called these distinctive short stories “Kelleryarns.”

In 1929 Gernsback founded Science Wonder Stories and not only published Keller’s work in the first issue, but listed him as Associate Science Editor. It was this issue of Science Wonder Stories that introduced the term “science fiction” to the world. The beginning of this magazine also began an intense writing period for Keller, but he was unable to support his family solely on a writer’s income and set up a small private psychiatric practice out of his home in Stroudsburg, Pennsylvania.

While a number of Keller’s works are considered dated and utilize plot lines or ideas that have since been dismissed as too simplistic or clichéd, other stories contained the detailed ramifications of future technology and addressed taboo issues of that era (such as bisexuality) that a reader might expect in a modern SF story. The level of complexity found in Keller’s writing rose above many other pulp stories of the same period and held the promise of “science fiction literature” that would later be fulfilled during SF's Golden Age.

Keller also wrote a number of horror and fantasy stories, which some critics regard as superior to his SF work. Most notable is his 1932 horror tale, “The Thing in the Cellar,” that has been reprinted several times in genre anthologies (see below). Keller also created a series of fantasy stories later called the Tales of Cornwall sequence; these were said to have been influenced by the stories of the famous escapist novelist James Branch Cabell.

Keller was a frequent contributor to SF fanzines, including Chad Oliver's satirical one-shot zine, The Moon Puddle. Oliver later said that Keller contributed to The Moon Puddle "during a period when he was sending everything to fan-
(Conklin, 1962)
“The Thing in the Cellar” in Twisted (Conklin, 1962)
“The Psychophonic Nurse” in Great Science Fiction About Doctors (Conklin & Fabricant, 1963)
“The Thing in the Cellar” in Worlds of Weird (Margulies, 1965)
“White Collars” in Amazing Stories (April, 1966)
“The Ambidexter” in Fantastic Stories (January, 1967)
“A Piece of Linoleum” in Masters of Horror (Norton, 1968) [anthology dedicated to Keller: “Whose tales of horror stemmed from his deep humanity”]
“The Feminine Metamorphosis” in When Women Rule (Moskowitz, 1972)
“The Rat Racket” in Satan's Pets (Ghidalia, 1972)
“The Lost Language” in Science Fiction of the 30's (Knight, 1975)
“The Worm” in Creatures from Beyond (Carr, 1975)
“The Ivy War” in Roots of Evil: Weird Stories of Supernatural Plants (Cassaba, 1976)
“A Twentieth Century Homunculus” in The Fantastic Pulps (Haining, 1976)
“A Piece of Linoleum” in When Evil Wakes (Derleth, 1977)
“The Thing in the Cellar” in Deadly Nightshade (Haining, 1977)
“The Revolt of the Pedestrians” in The Road to Science Fiction #2 (Gunn, 1979)
“The House Without Mirrors” in Weird Tales #1 (Carter, 1981)
“The Thing in the Cellar” in 65 Great Spine Chillers (Danby, 1982)
“The Goddess of Zion” in A Treasury of American Horror Stories (McSherry, et al., 1985)
“The Thirty and One” in Giants (Asimov, et al., 1985)
“The Revolt of the Pedestrians” in Amazing Stories: 60 Years of the Best Science Fiction (Asimov & Greenberg, 1985)
“Heredity” in Vamps (Greenberg & Waugh, 1987)
“The Thing in the Cellar” in 100 Twisted Little Tales of Torment (Dziemianowicz, et al, 1998)
“The Psychophonic Nurse” in New Horizons (Derleth, 1999) [with Paul Spencer]
“The Jelly-Fish” in American Fantastic Tales (Straub, 2009)

Note: Stories are listed by the publication dates (1945-2009) of the anthologies in which they were reprinted.

Concluding Comments
Donald M. Hassler, writing in Smith's Twentieth-Century Science-Fiction Writers, had the following to say about Keller: “The genre of science fiction and fantasy has seemed to attract some of the most talented, versatile, and idiosyncratic personalities and made writers of them... In all ways Keller was his own man; and it is perhaps too soon for a literary assessment of his work whether in abnormal psychology or in fantasy or humorous narrative.”

In the Introduction to the Avalon edition of Keller's Life Everlasting (1947), genre historian Sam Moskowitz wrote: “I have personally selected the material for this anthology in the hope that it will show the work of a man who has lived fully and bravely; a man who has slowly, after fifty years of writing, made for himself a definite place in literature. It is my belief that the evidence contained in this volume will convince many that, in David H. Keller, America has produced another important contemporary author.”

The Swarthmore College Library (Swarthmore, Pennsylvania) houses “The David H. Keller Collection,” donated to the library in the 1980s. The Collection consists of science fiction and fantasy pulp magazines from the 1920s through the 1960s, as well as many of Keller's personal papers.

Keller is especially noteworthy in the history of the National Fantasy Fan Federation (N3F) because his book, The Sign of the Burning Hart, was published by our club in 1948. This event meant that, since that time, our club has been credited with being a SF/fantasy book publisher.

What Might Have Been. The Story of a Social War by Ernest Bramah
Necrotic City by Leland Lydecker
Nascent by Tony Corden
The Unchained by Roger Ruffles
The characters are not fully developed, but they are sketched vividly enough to let the reader fill in the blanks. Although I love characters, I was satisfied with what I was given. Other than the main doctor, we don’t see into the other characters’ heads, filling in emotions and motivations through deductions. There is a plot,
which was the First Readers question when I was telling him that it is hard SF.

Interspersed with story are entries from the doctor’s personal journal. This passage reminded me very much of why a certain brand of dark humor exists among men who see death, maiming, and horrible things on a regular basis. I am very familiar with it from my father, and the First Reader’s veteran military version.

I know there’s a change taking place in me; my sense of humor’s coming back. Maybe the Greeks were right after all; they maintained that the purpose of humor is to preserve one’s perspective. On the other hand, how does that jibe with the humor of a prat fall? (No pun intended.) Or “gallows humor”? Have to think about that sometimes.

Near the end of the book I discovered a quote that fit very well with yesterday’s posed question of “are women human?” and the answer that we are all individuals. I just had to share it – and then laughed at myself, for complaining aloud that unlike an ebook, I can’t simply press a button and create a bookmark or highlight a passage. I had to get up and go find a pencil (yes, I wickedly mark the margins and underline passages in my best beloved books) and post-it to flag the page for later. I’ve been spoiled!

This should reinforce what I was taught: People can and usually do react differently from individual to individual. Homo sapiens Mark One Model One is a generalization. There’s something known as a Gaussian distribution, the bell-shaped curve. It gives us headaches occasionally, but better the bell curve than total equality that narrows the curve to a single point on the graph. We don’t need to worry. Not even our mass-produced machines can avoid the statistical reality of the Gaussian distribution. Why should we try to shoehorn humanity into a single point on the graph when the universe is constructed differently? There’s no such thing as “equality” in the universe, or in –

Overall, I enjoyed this book, and can recommend it if you enjoy science fiction and medicine. If you haven’t yet tried James White, by all means do so. I would also recommend David Burkhead’s EMT, which is set on a new Moonbase, and is hard SF in a short-story setting. …Cedar Sanderson

Elections

We have here the candidate statements and endorsements, followed by the sections of the Constitution and Bylaws pertaining to elections, and finally on page 11 the ballot.

Candidate Statements

President

George Phillips: Over my time as your President, we have seen an increase in membership, more active bureaus, now fanzines, outreach to fandom, and more. Re-elect me, and you will see more of the same. My objective is to create an N3F that all fan automatically join, as a matter of course. We are not there yet, but we’re moving in the right direction.

David Speakman: I hereby announce my candidacy to the N3F Directorate and am willing to serve if elected. In my tenure in the club, I have served many functions in the past, including Official Editor, Directorate member, and President. Currently, I am the Treasurer of the organization and Keeper of the Website.

My goals for 2018 include updating and making the website easier to use and to be more robust. I also look forward to working with the rest of the membership to help N3F more fully adapt to the 21st century to be of relevant service to fandom and to bring more fans into the fold.

Richard Bean Speakman: I’d like announce my candidacy for the N3F Directorate; as a member in good standing who is willing and able to serve if elected.

I’ve been a member of N3F for more than a decade. In the past I have served as both Treasurer and Election Teller for the club. I look forward to working with the President and my fellow N3F members to help grow the club in ways that both reaches out to new members without forgetting the needs of long-standing current members.

Thank you, I hope I can count on your support.

Jefferson Swycaffer: My platform as a candidate for the N3F Directorate is to support the President in every way possible in his efforts to publicize the N3F, and to work with the President to help the club grow and thrive.

Judy Carroll: I am running for the Directorate. I will support the President and do my best to carry out my club duties and do what I can to advance the club.

Laurraine Tutihasi: I’m willing.
Constitution and Bylaws

The following are the Constitution and Bylaws sections pertaining to elections. We have run a little late this year, relative to the posted schedule, but that schedule was written on the assumption this newsletter might be a quarterly, so elections will complete on time.

Article III – Elections
1. The President and five members of the Directorate are decided by the membership in an annual election of those officers. Ballots for the election are to be distributed before October 10th and the elected candidates take office on the following January 1st. Any member may seek office by complying with the official requirements which are to be published in the Official Organ at least two months previous to the filing deadline.

2. No person may hold two elective offices at the same time.

3. Each member may cast one vote for each of the five candidates of his/her choice in the election of the Directorate. The five candidates receiving the largest number of votes is elected. Ties are resolved by majority agreement of those elected candidates not included in the tie.

4. Of the candidates for President, the one receiving the largest number of votes is elected. In case of a tie, the elected Directorate chooses a President from the tied candidates.

IV. Elections
1. All candidates must, by the filing deadline of August 15 of each year, have paid their dues for the year in which they will hold office if elected, and agree to serve if appointed under Article II, Section 5 of the Constitution.

2. In addition to the regular candidates listed on the ballot, members may write in the name of any member in good standing as a candidate for any elective office. Any candidate so elected must submit a written statement of his willingness to serve plus the dues for the year in which he will serve within 14 days of his notification of election. In the event of non-compliance with the foregoing, the election will be voided and the candidate receiving the next highest number of votes for that office will be declared the winner.

3. Annual election platforms are to be printed in the September issue of TNFF. The election ballot will either be printed in the September issue of The Fan or mailed to members separately. Members may submit either a photocopy of the election ballot or vote from an email account previously registered with the secretary rather than the ballot itself. Each paper ballot shall include space for the N3F member to write their name in print, provide their signature and also the date the ballot was completed. Ballots for Constitutional amendments and other membership referendums may also be sent out with TNFF.

Ballot

This is your election ballot. To vote, circle your choices. To write in a candidate, write the candidate name after the “Write-In” entry. To vote, mark your choices and mail this form or a copy to Jon Swartz, 12115 Missel Thrush Court, Austin TX 78750. jon_swartz@hotmail.com The deadline for receipt of ballots is December 22.

PRESIDENT—Vote for One
George Phillies
Write-In__________________________

DIRECTORATE—Vote for Up To Five. Richard Speakman is a declared write-in candidate. To vote for Richard, write his name on the write-in line.
