

This is A Hand Written Page for the May 2002  
mailing of the SFPA. (I hope)

There was supposed to be an 8-page zine in this  
mailing, but my computer died unto death and  
perished like a dog, about May 14th or so.

Finally got it working (after tribulations you will  
hear of next mailing) began printing...

And the printer burnt out.

Given that I'm currently working the 10pm-6AM  
graveyard shift at a convenience store and getting ~~no~~  
no days off because they fired everyone else, I  
haven't got time to ~~re~~-redo it; as it is, I plan to  
express Mail this on the deadline day and hope it  
makes it.

And I wanted to tell you guys about the new  
1990 Honda station wagon we just bought, too...

Well, next mailing...
