Dear **CULT**,

First off, I would like to announce that I just went through the tedious and exhaustive procedures to enter into Escrow for the purchase of a house. In less than three months if all goes well, there shall be a New Castle Gafiate (aka Chateau Weinstein) in the hills of Alta Loma (part of Rancho Cucamonga) New address and phone number will appear when all this becomes official. Since my pubdate falls just about at the time I would be moving in, I would like to switch with a latter pubber: Dal? Richard? Please contact me if you can do this. Thanx. (PS: Naturally, I will be planning at least one house-warming party, and if **CULT**'ies are able to attend they will be welcome.

Second off, enclosed with this is the 1990 Hugu and Blackhole Final Ballot. Please, fill in your vote and send it back to me, if time permits. Feel free to copy the ballot and distribute it among various and insundry zines and conventions.

**SCOTTERS**: Here is the actual text (even the same typeface) of the ammendment concerning the Monday holiday rule, please be sure to include it in future editions:  
1. If a pubdate should fall on a postal holiday, the date is extended by one day (to the next day the office is normally open.) 2. Postmarks (and dated postal receipts) **ARE** the only acceptable proofs of mailing.

**GUNS**: I believe the constitution gives the states and the federal government the ability to have a militia, not private individuals. Guns for hunting, target practice and personal protection are not the same as caches of assault rifles larger than the city police department or private armies of bigotted extremists or druglords that can topple governments (on **OUR** soil.) The framers of our constitution would probably be aghast and remove the "right to bear arms" clause if they saw what is going on today. A reasonable limitation on guns is not unconstitutional and may be needed to stop laser-assisted portable nuclear tactical weaponry (the Capnut) likely to come out in the next few years.

Abstemiously,  
XX (his mark)
