VOL. 2. NO. 2

ASSISTANT EDITOR JOHN J. ROBINSON

12 ISSUES \$2.00

RICHARD KATUZIN

* Gemini 7 astronauts Frank Borman
* and James Lovell Jr. were paced
* by a mysterious object while
* passing over Cape Kennedy on their
* 3rd orbit. Paul Haney, spokes-
* man for the two, said the report
* was "one of the bigger puzzlers"
* and "certainly was unusual and
* unexpected".

* The crew, replying to questions
* from ground control, said the
* object seemed to come from the
* rear of their spacecraft and dir-
* ectly up to their window.

* WELCOME MR. O.S. OGUNKAH

* The Interplanetary News Service
* would like to take this opportunity
* to welcome Mr. O.S. Ogunkah of
* Omuahia, E. Nigeria as a new Branch
* Office Director. We are most
* certain that he will be an asset
* to our international work which is
* gaining in scope each day.

* If any of you reading this in
* any foreign country, or the U.S.A.
* would like to assist us please write
* us today telling us what you would be
* able to do.

ANOTHER BENEFICIAL UFO ENCOUNTER

The latest healing due to exposure to a UFO's magnetic ray of light is reported in Robert Gribble's NICAP REPORTER for December of 1965. (5108 S. Findlay St., Seattle, Wash. 98118).

"In the state of Texas on the night of September 3rd, 1965, Chief Deputy Billy McCoy and Patrol Deputy Bob Goode of the Brazoria County Sheriff's Dept. were on routine patrol a few miles south of Damon on Highway 36. Shortly after midnight, on a moon-lit night, the two deputies sighted a huge UFO which they estimated to be 200 feet long and 50 feet thick in the middle, tapering off towards the ends. There was a radiant purple light on the left, and a blue light on the right. As they watched the object through binoculars, it became alarmingly apparent to the deputies that the UFO was moving toward their car at a high rate of speed.

"The object cast a brilliant light on the ground and, according to officer Goode, WHEN THE HUGE DISC WAS ABOUT 150 FEET FROM THE PATROL CAR HE HAD AN IMPRESSION OF HEAT AND LIGHT ON HIS ARM which was out the car window."

"The excitement of the officer's experience soon turned to a deeper mystery. Prior to going on patrol, Goode had been bitten on the left index finger while helping his son move an alligator, THE WOUND HAD BEEN BADLY SWOLLEN AND BLEEDING PROFUSELY. After the encounter with the object, Goode discovered that the PAIN AND SWELLING WERE GONE AND THE WOUND WAS NO LONGER BLEEDING. This was the hand that was exposed to the light and heat radiating from the UFO."

Robert Gribble's publication continues on for another half a paragraph reporting the qualifications of the two officers, "intelligent, mature, level-headed and capable of sound judgment...."

After reading this report of another seemingly beneficial healing due to an encounter with a U.F.O. we re-read the recent correspondence from Dr. A.R. Davis (H) D.S. He sent us an introduction to Bio-magnetics outlining his 35 years of research. He defines this new science as the "amplification of the electro-magnetic force fields, same as in nature as the magnetic force fields that surround the earth and are radiated from the North and South Poles of the Planet Earth." (Our attempt to briefly define). It is entirely possible, in our opinion, that this force which comes from a Bio-magnet (which is said to have cured Cancer in animals and increased the growth and strength of plants under laboratory conditions) may be similar to the magnetic rays emanated from certain UFOs. Dr. Davis has designed instruments for the measurements and the indicating of polarity and says that many great discoveries have yet to be made in Medicine, Agriculture,

and Chemistry, both in the human and industrial applications.

He wants to assist those who realize the potentials of knowing this NEW SPACE AGE SCIENCE; we will report in future issues "the simple instructions of his science project kits and Bio-magnetic courses" that are supposed to be easy to read and understand.

Your letters of interest and inquiry concerning this new science will determine to what extent we will allow future space in SEARCHLIGHT for the reporting on Dr. Davis's experiments and discoveries.

CONFERENCE AT AMERICANA

Two conferences were going on in the Americana Hotel (New York City) on December 30th. One between Mike Quill and Mayor-elect John Lindsay to solve the New York City transit strike and the other a conference among seven leading saucer personalities gathered to discuss the U.F.O. enigma, in a private, informal atmosphere.

Those present, besides the editor and Staff Advisor - Harry A. Hoffman - of SEARCHLIGHT were Allen Greenfield of AMUFO (Atlanta, Ga.), Edward J. Babcock Special Investigator for the Interplanetary News Service, Director of NJAAP and editor of a forthcoming book, Dave Halperin also of NJAAP, James W. Mosley, Eugene R. Steinberg and Mike G. Mann all of the SAUCER NEWS staff. Also contacted by phone during the evenings proceeding were Rick R. Hilberg editor of UFO MAGAZINE (Cleveland, Ohio) and Robert Gribble editor of the NICAP REPORTER (Seattle, Washington).

Among the topics of discussion were SAUCER NEWS' NICAP Resolution, the beneficial UFO encounter detailed elsewhere in this issue, the possibility that Capt. Mantell may still be alive, Ray Palmer's FACT, and a discussion of a number of fantastic possibilities for the origin of UFOs.

UFOLOGY NEWS SHORTS *****

Margaret Storm, who wrote RETURN OF THE DOVE has been rumored to have been seen in the San Antonio area of Texas for the purpose of retiring to a subsurface city for rejuvenation. Mrs. Storm mysteriously vanished a number of years ago...Vermillion H. Brown, one of our dear readers, observed a strange blueish ball which tailed behind a long tail on August 15th, 1965 just on the outskirts of Socorro, New Mexico which is famous for the UFO and it's occupants seen by Police Officer Lonnie Zamorra on April 24, 1964. Mrs. Brown says her sighting was a spectacular site. Mrs. Brown also wants to know the reason for UFO activity in this area. What are your opinions readers?

THE SOURCE OF ERROR

BY RICHARD S. SHAVER
CONTRIBUTING EDITOR

UFO OR NEW TYPE OF METEOR

Thought itself is a flow of ions, along the image bearing fabrics of the mind.

Obstructing and distorting this flow and integration of thought the source of error in thought is disintegrated infected ions.

This is what the ancients called "de" and by other symbols it is known as the source of all human error.

The whole process of living, thinking correctly, getting along with others and building and creating a society, a sociable environment in which to procreate and grow is in fact the process of correction of this error in thought, arising from disintegration around us, in the sun-light, in the watch on your wrist, in the water you drink and bathe in, etc.

Correct syllogism, logic, the exchange of ideas and messages, all depend upon the trained mind recognizing this fact of error in all thought and making the necessary corrections.

That this most necessary of all knowledge is not taught today is the reason for wars, cold or hot, angry notes between rulers, etc.

The deros, whom I keep preaching about, have evolved over many centuries in a magnetic field in which the overwhelming saturation of infected ions makes every thought they handle come out an incorrect syllogism the net result being a standard way of thinking in which "anything is anything" is their only thought.

To understand a dero you have to understand what a correct syllogism really is! DO YOU? Or do you too come out with angry illogic in which the syllogistic fabric is so error-ridden that "anything is anything"?

This business of human thought is very like possessing a magnificent computer, and although it is designed for A.C. you proceed to try and run it on D.C.

Naturally all human thought and effort heads inevitably towards disaster, since no man bothers to learn logic (the way of correcting error in human thought flow as it occurs is called logic).

You want to stop war? Then teach the source of error and what to do about it. You will find this works just as well as prayer, in bringing about the "Kingdom of Love."

The Interplanetary News Service's *
producing of a small booklet entitled *
THE REAL FLYING SAUCER STORY offered *
free (with a small donation in stamps *
to cover postal costs) through various UFO and occult zines has met with
considerable success. To date the booklet, which explains the basic findings
available to date on the subject, is in it's third printing and has been sent
to about 500 persons. We wish to thank the following publications for offering
copies to their readers.

THE COSMIC STAR - edited by Merle S. Gould, 6311 Yucca St., Hollywood, Calif.
12 issues of this large monthly newspaper \$3.00

UNDERSTANDING MAGAZINE - edited by Dan Fry, Box 76, Merlin, Oregon.
12 issues \$2.50

INFINITY NEWS LETTER edited by David Grahm, 3820 Lennox Ave. N.E.
Cedar Rapids, Iowa. 12 issues \$3.00 but free if budget won't allow.

What was responsible for the UFO reports which covered some 7 states on the evening of Dec. 9th, 1965?

Was it a fireball which broke up into many different parts, as late day news paper reports had it, or was it a fleet of monitoring UFOs which disintegrated in the air so that they would not be captured?

Fallen debris from an object are said to have started fires in Ohio, Penna., and Michigan. The first report came from Windsor, Ont. Canada at about 5 p.m. Shortly after the object was said to have fallen in the vicinity of Elyria, Ohio but a search of a wooded area produced nothing. The witness, a Mrs. Ralph Richard told the New York Journal American that the object didn't have a tail or anything and she saw no smoke although it did start a fire. It was not like a fireball, according to her, but instead was round and seemed to give off a blue-yellow glow which later turned to pure yellow.

Officials stated that another woman reported seeing a UFO doing maneuvers in the sky and then falling to the earth near her home. It was not close enough for her to see any details. The area in question, about 30 miles from Pittsburg, was quickly roped off by the Army (1 A.M. News broadcast over WNEC TV).

About the same time near Laper, Michigan two small stacks of shredded foil were found by the Sheriff's office investigating reports that a flaming UFO had fallen in the area.

The U.S. Coast Guard said a flying object apparently exploded over the Windsor-Detroit area and 4 vessels were dispatched into Lake St. Clair but they could find nothing.

And indeed if it was a meteor or fireball we must acknowledge it as the most unusual on record for from Indiana, Ohio, Pennsylvania and Canada it was also seen in California by two patrolmen, Charles Seril and Clark Mears, a number of hours later at 1 a.m. They said it moved in a southerly direction over the hills west of San Francisco Bay. Police reported phone calls on sightings of a second object at 5:40 a.m.

A meteor that crashes in 5 different places, starts fires, vanishes and then shows up thousands of miles away hours later sounds better than any saucer tale to date. What do you say readers?

EDITOR SPEAKS FOR SAUCER NEWS

Saucerdom in the New York-New Jersey area got a shot in the arm when the Editor of the SEARCHLIGHT and International Director of the Interplanetary News Service, Timothy Green Beckley, lectured in front of a sizeable crowd on Dec. 17th in the Grand Ballroom of the Hotel Woodstock, located on 43rd Street in the heart of New York City.

The lecture, the first ever to be held in the Grand Ballroom, was given for the Discussion and Lecture Committee of SAUCER NEWS headed by James W. Moseley.

In fact if I were more prone to persecution I would swear that there was considerable difficulties involved with my giving this particular talk. Originally the date for the lecture was set for Dec. 10th. A matter of days before the lecture notices, to be mailed to hundreds of persons in the N.Y. area, were to be printed up we were notified that the usual room provided for the monthly lectures, as well as every other room in the hotel, would be unavailable for us on that evening.

We then decided upon Dec. 17th as an appropriate date (even with the close approach of the Holiday Seasons) but again were informed that all but one room was unobtainable. Deciding (without looking at the room until the very evening of the lecture) that this would just have to do we proceeded to send out hundreds of notices.

Upon seeing the room that had been set aside for us your editor nearly fell over in freight. The room was very small to say the least.

Even early in the evening, with the lecture scheduled to start at 8:30 p.m. we could well tell that this room would just never seat all the people who had come to hear your editor speak.

Thus we had to seek other, last minute, arrangements. The Committee was most fortunate in getting the Hotel's permission to move into the Grand Ballroom and set up our equipment. Thus with a lot of last minute shifting and switching of people we were honored with being the first person privileged to give our talk in the Grand Ballroom which was quite a thrill to us.

So apparently, despite the often impossible barriers which blocked our path, the date change did us a great deal of good not harm.

Jim Moseley informs us that the reaction of the "hard core" was most favorable to yours truly's talk. In my talk I discussed such things as a possible form of communications with the saucer pilots, saucerian oddities, the Shaver mystery and Rainbow City. I also had a very large collection of slides which I showed for the first time anywhere.

To sum up this event properly I think the comment by Jim Moseley is quite timely and proper "...it seems the Space Brothers were with us this time."

BOOK NEWS

(NOTE: All items are available from Timothy Green Beckley, 3 Courtland Street, New Brunswick, N.J. 08901 at prices listed.)

GRAY BARKER'S BOOK OF SAUCERS \$3.00

Well after waiting some time for this book we can well say it was worth every minute of the wait. This volume in particular will be a gem for all SEARCHLIGHT readers since it contains a considerable amount of material on Dero and the possibility that the Three Men in Black may have returned in the form of a light phenomena in Philadelphia.

And for those of us who are fans of Jack Robinson, and his regular articles for the SEARCHLIGHT, this book contains not only his picture but messages which came through the Ouija Board of his lovely wife, Mary. These messages -- some of which are backed up by Gray Barker -- refer to Albert K. Bender and the Dero.

Gene Duplantier, as always, did a remarkable job in illustrating this book and Gray's commentary is first class. You will also read about the Brazilian farmer who was abducted by the pilots of a saucer and who was forced to have relations with a female occupant of the ship. Floating lights, mysterious foot steps and other oddities are packed into this book. We heartily put out personal stamp of approval on GRAY BARKER'S BOOK OF SAUCERS.

DANGER FROM THE STARS by Rev. Frank E. Stranges \$1.00

Rev. Stranges discusses at some length the mysterious being that addressed the U.N. and then vanished. He has done quite a remarkable job in arranging the large number of unexplained air crashes; disappearances and other unsolved events that still plague the experts.

And although he acknowledges the very fact that friendly space people are among us daily he also says a percentage of the Flying Saucers seen over our planet are operated by dark and sinister forces.

In order to combat these forces and to protect yourself against all adversaries Rev. Stranges strongly advises everyone to read this documentation.

(EDITOR'S NOTE: We also have by Rev. Stranges FLYING SAUCERAMA \$2.50 - MY FRIEND FROM BEYOND EARTH \$1.00 - and STRANGE SIGHTINGS \$1.00)

MENGER ARTICLE RECEIVES WORLD WIDE SUPPORT

The article in SEARCHLIGHT #12 dealing with Howard Menger has been praised and supported by many leading researchers. Menger now talks of a convention for the Spring of '66. The article on Menger which we promised will appear REAL SOON.
